Says New Wilmington Loan Never Granted

Someone in the office of Federal Administrator Harold Ickes is out of line with the facts in the matter of the proposed sewer loan which was finally refused by the boro officials. In a statement issued from Ickes' office Monday the board claimed that they could get no action from the Boro of New Wilmington and the loan was rescinded.

This does not square with the facts according to the boro secretary, Thomas V. Mansell. In a letter to the News today he explains the matter in the following fashion:

New Wilmington,
April 9, 1934.

Editor of the New Castle News,
New Castle, Pa.
Dear Sir:

In the April 9th issue of the New Castle News there appears on the front page an article concerning the recission of a PWA loan to the Borough of New Wilmington. Among other things the article states that the Borough has refused to answer all communications from the PWA officials. That was not the case. Early in February the Harrisburg office of the PWA inquired as to whether or not the Borough wished the loan. At that time I wrote the Harrisburg office that the Borough could not go through with the proposed project due to difficulties in obtaining the property necessary, and therefore we would not want the loan. That should have settled the matter, but on February 12, I received a communication from the Washington office of the PWA, asking if the Borough wanted the loan. On February 13 I sent the following tele-

Insull Still Seeks To Delay Success Of Extradition Move

(International News Service)

ISTANBUL, April 10.—Samuel Insull underwent a minor operation for an abscess on his left thumb today, spurring hopes of his lawyers that they could prevent his extradition to the United States at the eleventh hour.

A brief announcement said Insull's general health was good, but attorneys for the indicted former utilities magnate of Chicago foresaw an indefinite delay which they believed would enable them to stave off extradition indefinitely.

Insull's operation came as a complete surprise, since it had not been generally known that his thumb was infected.

Extradition within a few hours had been expected following the arrival here of American Ambassador Robert P. Skinner, from Angora, the capital, to supervise Insull's departure in the custody of an American official.

Giant Armada Sweeping Down Pacific Coast

Pacific Coast Fleet Sails Down Lower California Coast To Concentration Points

INDIVIDUAL TESTS ARE BEING MADE

By RALPH B. JORDAN
International News Service Staff Correspondent

ABOARD U. S. S. CHICAGO, WITH UNITED STATES FLEET, April 10.—The greatest American armada ever to put to sea sailed down the coast of lower California today on the first leg of a voyage back to the Atlantic, and went into the first of a series of maneuvers designed to test the efficiency and ingenuity of the defenders of America's shores.

Bugles blared and 56,000 officers and men on 110 ships snapped to their posts.

Churn Pacific

Strung out along the Pacific like a gigantic python, the ships broke formation and scurried toward a point designated as a place of concentration.

Signal flags whipping in the breeze, propellors churning the Pacific, the grey ships, guns and planes breaking their smooth contours, were on their own as they sped toward the concentration point.

It was a test in individual maneuvering, a simulation of what would happen in the event of an emergency at some distant spot, the answer of the fleet to the question of what would be done if orders were received to proceed at full speed to the point of emergency.

New Jersey Judge Carried Pistol On Bench For Safety

Hearings Resumed On Conditions In New Jersey Courts

(International News Service)

TRENTON, N. J., April 10.—How Common Pleas Judge William B. Harley of Passaic, impressed by threats from politicians, always had a revolver with him as he presided in court remained the outstanding sensation as the judiciary committee of the assembly resumed sessions today to hear more testimony on conditions in New Jersey's courts.

Former Judge Harley testified:

"For weeks I carried a gun on the bench."

That Senator Roy T. Yates had threatened: "We'll let the goofers on you."

That persons had telephoned him and threatened to "throw a pineapple through the window."

And all this had occurred, he testified, because he had refused in 1931 to quash an indictment against Harry Weinberger, Passaic lawyer, in connection with the failure of an investment concern.

WILL ROGERS says:

(Special To The News)

HOLLYWOOD, Cal., April 10.—The whole American fleet left the Pacific today; it had to, in order to be away around on the Atlantic side by the time war broke out in Japan and Russia.

Eastern sea coast congressmen demand the sailors spend some wages in their towns; western ones want the same. The government ought to let each town (east and west) figure out how much the navy spends there, then let the government pay it, but let it be done with the understanding that politicians and Chambers of Commerce have hold on the fleet and that it can be placed wherever it's needed.

Yours,

Will Rogers

Y. M. C. A. Drive Opens Tomorrow

Dinner On Wednesday Night Opens 48-Hour Campaign For Members

On their mark and all but ready to go, an energetic organization of 25 teams of men and boy solicitors today were awaiting the signal which starts them off Wednesday night on a 48-hour campaign for 900 membership for the city's Young Men's Christian Association.

The Y's annual drive for new and renewal members will open with a dinner-rally in the association's banquet room at 6:15 tomorrow evening. General Chairman Julius V. Blaha, to whom "commander-in-chief" has been attached because of the novel drive set-up, will outline last-minute instructions at that time and after that campaigning will begin in earnest.

Throughout the past week a slight pre-campaign effort has been made in the hopes of subscribing many of the Y's oldtime members before the drive officially opens.

Report dinners will be attended by the teams on both Thursday and Friday evenings. It is Friday night that victory is expected to be reached.

Divided into the "Army" and "Navy" divisions for competitive reasons alone, the entire drive personnel this year will find the campaigning all the more interesting inasmuch as defeat is something anticipated neither by the army or the navy workers.

GARY SCHOOL HEAD TELLS OF "BRAIN TRUST" MEMBERS WHO TOLD HIM OF PLANS

Dr. Wirt Names Those He Said Told Him Of Plans To Change Government

INFORMATION GIVEN DURING DISCUSSION

Three Men And Three Women Are Cited By Dr. Wirt As Authority

(BULLETIN)
(International News Service)

WASHINGTON, April 10. Dr. William A. Wirt, the Gary (Ind.) educator, who startled the country with the charge that members of the so-called "Brain Trust" were intellectual radicals and were plotting to force a change in the American system of government, gave to a congressional investigating committee today the names of those whom he said had told him of their plans.

"Who were the persons who told you of plans to overthrow the present social order?" asked Rep. Bulwinkle (D) of North Carolina, chairman of the committee.

Six Are Named

Dr. Wirt replied:

"Robert Bruere, chairman of the Textile Code Advisory board; David Cushman Coyle of the PWA Technical Review board; Laurence Todd, representative of Tass Agency, press service for the soviet government; Hilda Garde Kneeland, from the Home Economics bureau of the Department of Agriculture; Mary Taylor, economist in the AAA; Alice Barrows of the Department of Education, Interior Department.

"As far as I remember that includes the entire list."

Wirt said he received his information at a dinner given in the home of Miss Barrows in Virginia, on September 1.

Dr. Wirt added those he named were "only a part of the persons I talked to."

"It is not significant from the fact of talking to these employes, but it is significant from what were their ideas," he continued.

Bulwinkle demanded that he detail the conversation.

"If these charges of mine are disproven I will be the happiest man in the country," Wirt said.

Audience Admonished

The audience applauded and again was admonished to "keep quiet."

Dr. Wirt said that recovery from April to September was three times what it had been in a similar time in any other country.

Hilda Kneeland asked him if he was the man who tried to convince the A. F. of L. to go back to conditions of 1926, he said.

"My answer was that we should welcome the opportunity to go back to 1926—that the common man never enjoyed such benefits as in that year," replied Wirt.

"The object of the inquiry is to find out what these people told Dr. Wirt. The witness should confine himself to that,' Rep. Arnold interposed.

Rep.Lehlbach came to Wirt's defense, asserting that he was answering the questions. The committee wrangled over the course of Dr. Wirt's answers. Wirt said it was impossible to give verbatim the conversation at the dinner party.

Senator Reed interposed that Wirt

ABOARD U. S. S. CHICAGO, WITH UNITED STATES FLEET, April 10.—The greatest American armada ever to put to sea sailed down the coast of lower California today on the first leg of a voyage back to the Atlantic, and went into the first of a series of maneuvers designed to test the efficiency and ingenuity of the defenders of America's shores.

Bugles blared and 56,000 officers and men on 110 ships snapped to their posts.

Churn Pacific

Strung out along the Pacific like a gigantic python, the ships broke formation and scurried toward a point designated as a place of concentration.

Signal flags whipping in the breeze, propellors churning the Pacific, the grey ships, guns and planes breaking their smooth contours, were on their own as they sped toward the concentration point.

It was a test in individual maneuvering, a simulation of what would happen in the event of an emergency at some distant spot, the answer of the fleet to the question of what would be done if orders were received to proceed at full speed to the point of emergency.

Hearings Resumed On Conditions In New Jersey Courts

(International News Service)

TRENTON, N. J., April 10.—How Common Pleas Judge William B. Harley of Passaic, impressed by threats from politicians, always had a revolver with him as he presided in court remained the outstanding sensation as the judiciary committee of the assembly resumed sessions today to hear more testimony on conditions in New Jersey's courts.

Former Judge Harley testified:

"For weeks I carried a gun on the bench."

That Senator Roy T. Yates had threatened: "We'll let the goofers on you."

That persons had telephoned him and threatened to "throw a pineapple through the window."

And all this had occurred, he testified, because he had refused in 1931 to quash an indictment against Harry Weinberger, Passaic lawyer, in connection with the failure of an investment concern.

HOLLYWOOD, Cal., April 10.—The whole American fleet left the Pacific today; it had to, in order to be away around on the Atlantic side, by the time war broke out in Japan and Russia.

Eastern sea coast congressmen demand the sailors spend some wages in their towns; western ones want the same. The government ought to let each town (east and west) figure out how much the navy spends there, then let the government pay it, but let it be done with the understanding that politicians and Chambers of Commerce have hold on the fleet and that it can be placed wherever it's needed.

Divided into the "Army" and "Navy" divisions for competitive reasons alone, the entire drive personnel this year will find the campaigning all the more interesting inasmuch as defeat is something anticipated neither by the army or the navy workers.

Dr. Wirt Names Those He Said Told Him Of Plans To Change Government

INFORMATION GIVEN DURING DISCUSSION

Three Men And Three Women Are Cited By Dr. Wirt As Authority

(International News Service)

WASHINGTON, April 10. Dr. William A. Wirt, the Gary (Ind.) educator, who startled the country with the charge that members of the so-called "Brain Trust" were intelleetual radicals and were plotting to force a change in the American system of government, gave to a congressional investigating committee today the names of those whom he said had told him of their plans.

"Who were the persons who told you of plans to overthrow the present social order?" asked Rep. Bulwinkle (D) of North Carolina, chairman of the committee.

Six Are Named

Dr. Wirt replied:

"Robert Bruere, chairman of the Textile Code Advisory board; David Cushman Coyle of the PWA Technical Review board; Laurence Todd, representative of Tass Agency, press service for the soviet government; Hilda Garde Kneeland, from the Home Economics bureau of the Department of Agriculture; Mary Taylor, economist in the AAA; Alice Barrows of the Department of Education, Interior Department.

"As far as I remember that includes the entire list."

Wirt said he received his information at a dinner given in the home of Miss Barrows in Virginia, on September 1.

Dr. Wirt added those he named were "only a part of the persons I talked to."

"It is not significant from the fact of talking to these employes, but it is significant from what were their ideas," he continued.

Bulwinkle demanded that he detail the conversation.

"If these charges of mine are disproven I will be the happiest man in the country," Wirt said.

Audience Admonished

The audience applauded and again was admonished to keep quiet.

Dr. Wirt said that recovery from April to September was three times what it had been in a similar time in any other country.

Hilda Kneeland asked him if he was the man who tried to convince the A. F. of L. to go back to conditions of 1926, he said.

"My answer was that we should welcome the opportunity to go back to 1926—that the common man never enjoyed such benefits as in that year," replied Wirt.

"The object of the inquiry is to find out what these people told Dr. Wirt. The witness should confine himself to that," Rep. Arnold interposed.

Rep. Lehlbach came to Wirt's defense, asserting that he was answering the questions. The committee wrangled over the course of Dr. Wirt's answers. Wirt said it was impossible to give verbatim the conversation at the dinner party.

Senator Reed interposed that Wirt

Says New Wilmington Loan Never Granted

Someone in the office of Federal Administrator Harold Ickes is out of line with the facts in the matter of the proposed sewer loan which was finally refused by the boro officials. In a statement issued from Ickes' office Monday the board claimed that they could get no action from the Boro of New Wilmington and the loan was rescinded.

This does not square with the facts according to the boro secretary, Thomas V. Mansell. In a letter to the News today he explains the matter in the following fashion:

New Wilmington,
April 9, 1934.

Editor of the New Castle News,
New Castle, Pa.
Dear Sir:

In the April 9th issue of the New Castle News there appears on the front page an article concerning the recission of a PWA loan to the Borough of New Wilmington. Among other things the article states that the Borough has refused to answer all communications from the PWA officials. That was not the case. Early in February the Harrisburg office of the PWA inquired as to whether or not the Borough wished the loan. At that time I wrote the Harrisburg office that the Borough could not go through with the proposed project due to difficulties in obtaining the property necessary, and therefore we would not want the loan. That should have settled the matter, but on February 12, I received a communication from the Washington office of the PWA, asking if the Borough wanted the loan. On February 13 I sent the following tele-

Insull Still Seeks To Delay Success Of Extradition Move

ISTANBUL, April 10.—Samuel Insull underwent a minor operation for an abscess on his left thumb today, spurring hopes of his lawyers that they could prevent his extradition to the United States at the eleventh hour.

A brief announcement said Insull's general health was good, but attorneys for the indicted former utilities magnate of Chicago foresaw an indefinite delay which they believed would enable them to stave off extradition indefinitely.

Insull's operation came as a complete surprise, since it had not been generally known that his thumb was infected.

Extradition within a few hours had been expected following the arrival here of American Ambassador Robert P. Skinner, from Angora, the capital, to supervise Insull's departure in the custody of an American official.

The senate previously defeated the LaFollette amendment, which sought to increase the committee's schedule of income taxes. The vote was 36 to 47. Senator LaFollette (R) of Wisconsin, proposed a normal rate of six per cent and surtaxes ranging from five to 71 percent.

He will bring his trombone along and will conduct the same sort of a program that has made him famous throughout the United States.

No Big Fish

As for the fish—well, there were any number of one, two and three pounders, as well as a couple of turtles which Astor confessed he had bought off Anguilla Island for a dollar. There was another fish too—a dead one, which Lytle Hull, one of Astor's guests, tried to persuade the newsmen he caught while they were aboard. The trouble with Hull's humorous myth was that when he pulled in the fish, a beautiful blue and gold queen trigger, it was all curled up and stiff as a board.

The big Astor yacht, which was anchored between Cat Cay and Gun Cay, in the Bahamas, when the correspondents went aboard, moved into other water today, preparatory to putting into Miami early Thursday. The president will board a train here some time Thursday for his return trip to Washington. He will arrive late Friday evening, refreshed from two weeks and two days at sea, where he rested and, several times at least, fished.

Miss Heneker predicted growing strength and a great future for business and professional women throughout the entire world.

Adding greatly to the musical program of the evening was a song by three women from Greenville, Miss Ruby Smith, Mrs. Helen McQueen and Mrs. Bertha Weir. They were accompanied at the piano by Miss Lizetta Zahniser, also of Greenville. Instrumental numbers were presented by The Castleton orchestra.

Dennis, Mrs. Hazel Lightfoot, Miss Alisan Leslie, Miss Rose Barber, Miss Matilda Coley, Miss Anna Leonhart and Miss Laura Stevenson. Lions Club Hears Dr. J. O. Buswell On "Patriotism"

Says He Stands For Peace But Is Not A Pacifist—Things Worse Than War

America most certainly needs a "square deal" today, be it an old deal or a new deal, Dr. J. Oliver Buswell, president of Wheaton college, Wheaton, Ill., declared to the Lions club today as he spoke to it on "Patriotism."

"If American men could have that spirit of true and square objectivity and forget themselves, we'd get along much better" the college head, guest speaker at the First Baptist church here this week, declared. "But the difficulty," he quickly added, "is that everyone is looking out for himself. Too few men have that true, sterling American character."

Dr. Buswell, devoting his address to the citizen's duty to vote, to bear arms and to his peace-tim duties decried the present political tendency in our cities. He referred to the politics of Chicago, only 16 miles distant from his home.

The speaker asserted that he is not a pacifist and stated why. Emphatically did he declare that "I stand for peace as long as we can prevent war, but there are things worse than war. Dishonor is one of them.

He deplored, in conclusion, the tendency to Communism in our American college and in other phases of our life. He warned of the communistic growth here.

The savage isn't so dumb. He can tell whether he is uncomfortable without looking at a thermometer.

"Anybody can write," says an ad. But that part doesn't matter. The question is, will anybody read?

was making direct answers. O'Connor insisted that he was going far afield.

"What is your idea of the program in view of the great recovery agriculture has had, I asked," said Dr. Wirt.

"The answer given to me was that our group—"

"Who gave you that answer?"

"Miss Kneeland."

Wallace and Tugwell Mentioned

"She replied that our group accepts the leadership of Secretary Wallace and his first assistant Dr. Tugwell, and he takes the view that our so-called recovery is only an illusion."

Dr. Wirt insisted that Assistant Secretary Tugwell since has made public statements bearing out the contention.

He was then asked to detail statements of Mary Taylor and Miss Kneeland.

"It was given in answer to my questions that Tugwell must undo 100 years of development—that the untangling and removing these 100 years of tissues would be like dispensing with civilization itself."

"Another statement was that it was not logical to have a planned economy within our present constitutional structure.

"Another general statement was that they said the first series of changes will have to do with the constitutions and statutes."

Wirt said Miss Kneeland complained that we "ought to do something—there are so many of our group in the government."

Another statement made by Miss Kneeland, he said, was that "we had gone a long way and that we were now ready for the final step and we were about ready to cross that threshold."

Dr. Wirt said Laurence Todd, Washington correspondent of the Soviet, News Agency, was the one who said "Roosevelt is only the Kerensky of this revolution."

"What did Miss Taylor say—

"She did nothing but aquiesce by nodding approval," Wirst said.

No Decision By Committee

Washington, April 10.—For nearly two hours today Dr. William A. Wirt, Gary, (Ind.) educator, regaled a congressional committee and a roomful of interested spectators with the background of his sensational charges that the so-called "brain trusters" in the administration were quietly conniving at the overthrow of the established American social order.

The officials named simply laughed or declined to comment when asked about Dr. Wirt's testimony.

Coyle said he had attended the party, but he didn't remember hearing Kerensky's name mentioned, and that as for the general conversation Dr. Wirt conducted most of it concerning his (Wirt's) monetary theories.

Dr. Wirt concluded his testimony by saying he considered he had performed his public duty by bringing the matter into the open "and it is now up to the committee to proceed" with a full investigation.

The committee adjourned until tomorrow without making any decision as to wether to summon those named or any other additional witnesses.

SAYS THAT NEW WILMINGTON LOAN NEVER GRANTED

gram to the PWA officials at Washington:

"New Wilmington, Pa.,
February 13; 1934.

H. L. Ickes:
Federal Administrator of Public Works, Washington, D. C.:

The Borough cannot go ahead with its proposed storm sewer. Stop. Harrisburg office notified a week ago.

T. V. MANSELL,
Sec. Borough New Wilmington."

I do not quite see how the PWA or anybody else could rescind a loan that had never been granted, and the reason the loan was not granted was because the Borough notified the PWA that it did not want the loan, and refused to execute the papers necessary to secure the loan. It seems to me that what is really irking the PWA officials is the fact that the Borough would not incur the five thousand dollar indebtedness, which the PWA was anxious that the Borough assume.

Very truly yours,
THOMAS V. MANSELL,
Borough Secretary.

Adding greatly to the musical program of the evening was a song by three women from Greenville, Miss Ruby Smith, Mrs. Helen McQueen and Mrs. Bertha Weir. They were accompanied at the piano by Miss Lizetta Zahniser, also of Greenville. Instrumental numbers were presented by The Castleton orchestra.

Lions Club Hears Dr. J. O. Buswell On "Patriotism"

Says He Stands For Peace But Is Not A Pacifist—Things Worse Than War

America most certainly needs a "square deal" today, be it an old deal or a new deal, Dr. J. Oliver Buswell, president of Wheaton college, Wheaton, Ill., declared to the Lions club today as he spoke to it on "Patriotism."

"If American men could have that spirit of true and square objectivity and forget themselves, we'd get along much better" the college head, guest speaker at the First Baptist church here this week, declared. "But the difficulty," he quickly added, "is that everyone is looking out for himself. Too few men have that true, sterling American character."

Dr. Buswell, devoting his address to the citizen's duty to vote, to bear arms and to his peace-time duties decried the present political tendency in our cities. He referred to the politics of Chicago, only 16 miles distant from his home.

The speaker asserted that he is not a pacifist and stated why. Emphatically did he declare that "I stand for peace as long as we can prevent war, but there are things worse than war. Dishonor is one of them.

He deplored, in conclusion, the tendency to Communism in our American college and in other phases of our life. He warned of the communistic growth here.

"What is your idea of the program in view of the great recovery agriculture has had, I asked," said Dr. Wirt.

"The answer given to me was that our group—"

"Who gave you that answer?"

"Miss Kneeland."

Wallace and Tugwell Mentioned

"She replied that our group accepts the leadership of Secretary Wallace and his first assistant Dr. Tugwell, and he takes the view that our so-called recovery is only an illusion."

Dr. Wirt insisted that Assistant Secretary Tugwell since has made public statements bearing out the contention.

He was then asked to detail statements of Mary Taylor and Miss Kneeland.

"It was given in answer to my questions that Tugwell must undo 100 years of development—that the untangling and removing these 100 years of tissues would be like dispensing with civilization itself."

"Another statement was that it was not logical to have a planned economy within our present constitutional structure.

"Another general statement was that they said the first series of changes will have to do with the constitutions and statutes."

Wirt said Miss Kneeland complained that we "ought to do something—there are so many of our group in the government."

Another statement made by Miss Kneeland, he said, was that "we had gone a long way and that we were now ready for the final step and we were about ready to cross that threshold."

Dr. Wirt said Laurence Todd, Washington correspondent of the Soviet News Agency, was the one who said "Roosevelt is only the Kerensky of this revolution."

"What did Miss Taylor say—

"She did nothing but aquiesce by nodding approval," Wirst said.

No Decision By Committee

Washington, April 10.—For nearly two hours today Dr. William A. Wirt, Gary, (Ind.) educator, regaled a congressional committee and a roomful of interested spectators with the background of his sensational charges that the so-called "brain trusters" in the administration were quietly conniving at the overthrow of the established American social order.

The officials named simply laughed or declined to comment when asked about Dr. Wirt's testimony.

Coyle said he had attended the party, but he didn't remember hearing Kerensky's name mentioned, and that as for the general conversation Dr. Wirt conducted most of it concerning his (Wirt's) monetary theories.

Dr. Wirt concluded his testimony by saying he considered he had performed his public duty by bringing the matter into the open "and it is now up to the committee to proceed" with a full investigation.

The committee adjourned until tomorrow without making any decision as to wether to summon those named or any other additional witnesses.

The senate previously defeated the LaFollette amendment, which sought to increase the committee's schedule of income taxes. The vote was 36 to 47. Senator LaFollette (R) of Wisconsin, proposed a normal rate of six per cent and surtaxes ranging from five to 71 percent.

Noted Song Leader To Appear At Schools And First Christian Church

HOMER RODEHEAVER

Wednesday will bring back to New Castle a gentleman whose magnetic personality and great ability as a song leader thrilled thousands of local people during the Billy Sunday campaign over 20 years ago—none other than Homer Rodeheaver.

Mr. Rodeheaver will arrive early in the day, visit several schools, and then, at 7:30 p. m., will conduct a sacred musical recital at the First Christian church, to which all people of New Castle who can crowd into the church auditorium may attend. He will bring his trombone along and will conduct the same sort of a program that has made him famous throughout the United States.

No Big Fish

As for the fish—well, there were any number of one, two and three pounders, as well as a couple of turtles which Astor confessed he had bought off Anguila Island for a dollar. There was another fish too—a dead one, which Lytle Hull, one of Astor's guests, tried to persuade the newsmen he caught while they were aboard. The trouble with Hull's humorous myth was that when he pulled in the fish, a beautiful blue and gold queen trigger, it was all curled up and stiff as a board.

The big Astor yacht, which was anchored between Cat Cay and Gun Cay, in the Bahamas, when the correspondents went aboard, moved into other water today, preparatory to putting into Miami early Thursday. The president will board a train here some time Thursday for his return trip to Washington. He will arrive late Friday evening, refreshed from two weeks and two days at sea, where he rested and, several times at least, fished.

Thousands have Ended their Bowel Worries by taking this advice!

Can constipation safely be relieved? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice *and know*.

You are not likely to cure your constipation with salts, pills, tablets or any of the habit-forming cathartics. But you *can* safely relieve this condition by gentle regulation with a suitable liquid laxative.

THE LIQUID TEST:

First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.

Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without using force. An approved liquid laxative (one which is most widely used for both adults and children) is Dr. Caldwell's Syrup Pepsin. It is a doctor's prescription, and perfectly *safe*. Its laxative action is based on senna, a *natural* laxative; the dose can be measured, and the action thus regulated to suit your individual need.

If there are children in your household, don't give them any fad form of laxative, but use a healthful, helpful preparation like Dr. Caldwell's Syrup Pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.

NRA

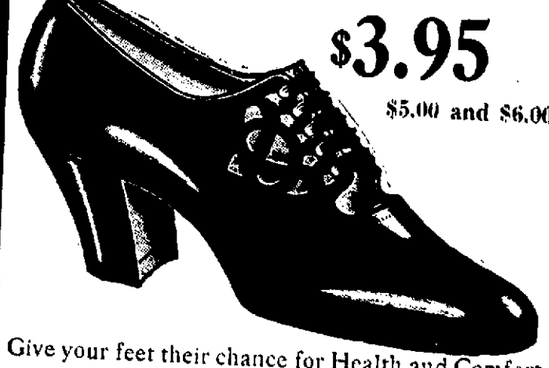

A Frank Statement Concerning Dr. Caldwell's Syrup Pepsin

We believe the use of pills and tablets containing mineral drugs is rapidly giving way to gentle regulation of the bowels with a liquid laxative.

We believe Dr. Caldwell's original prescription of fresh herbs, pure pepsin, and senna is the ideal family laxative.

And we *know* it is a safe preparation for children and expectant mothers because it does not cause bowel strain or irritate the kidneys.

AT THE PENN

STARTING THURSDAY

Thousands have Ended their Bowel Worries

by taking this advice!

Can constipation safely be relieved? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice *and know*.

You are not likely to cure your constipation with salts, pills, tablets or any of the habit-forming cathartics. But you *can* safely relieve this condition by gentle regulation with a suitable liquid laxative.

THE LIQUID TEST:

First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.

Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without using force. An approved liquid laxative (one which is most widely used for both adults and children) is Dr. Caldwell's Syrup Pepsin. It is a doctor's prescription, and perfectly *safe*. Its laxative action is based on senna, a *natural* laxative; the dose can be measured, and the action thus regulated to suit your individual need.

If there are children in your household, don't give them any fad form of laxative, but use a healthful, helpful preparation like Dr. Caldwell's Syrup Pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.

A Frank Statement Concerning Dr. Caldwell's Syrup Pepsin

We believe the use of pills and tablets containing mineral drugs is rapidly giving way to gentle regulation of the bowels with a liquid laxative.

We believe Dr. Caldwell's original prescription of fresh herbs, pure pepsin, and senna is the ideal family laxative.

And we *know* it is a safe preparation for children and expectant mothers because it does not cause bowel strain or irritate the kidneys.

AT THE PENN

STARTING THURSDAY

Thousands have Ended their Bowel Worries by taking this advice!

Can constipation safely be relieved? "Yes!" say medical men. "Yes!" say the many thousands who have followed their advice *and know.*

You are not likely to cure your constipation with salts, pills, tablets or any of the habit-forming cathartics. But you *can* safely relieve this condition by gentle regulation with a suitable liquid laxative.

THE LIQUID TEST:

First: select a properly prepared liquid laxative. Second: take the dose you find suited to your system. Third: gradually reduce the dose until bowels are moving of their own accord.

Simple, isn't it? And it works! The right liquid laxative brings thorough bowel action without using force. An approved liquid laxative (one which is most widely used for both adults and children) is Dr. Caldwell's Syrup Pepsin. It is a doctor's prescription, and perfectly *safe.* Its laxative action is based on senna, a *natural* laxative; the dose can be measured, and the action thus regulated to suit your individual need.

If there are children in your household, don't give them any fad form of laxative, but use a healthful, helpful preparation like Dr. Caldwell's Syrup Pepsin. Its very taste will tell you it is wholesome, and agreeable to the stomach. Delightful taste, and delightful action; there is no discomfort at the time, or after. Ask your druggist for Dr. Caldwell's Syrup Pepsin, all ready to take.

NRA WE DO OUR PART

A Frank Statement Concerning Dr. Caldwell's Syrup Pepsin

We believe the use of pills and tablets containing mineral drugs is rapidly giving way to gentle regulation of the bowels with a liquid laxative.

We believe Dr. Caldwell's original prescription of fresh herbs, pure pepsin, and senna is the ideal family laxative.

And we *know* it is a safe preparation for children and expectant mothers because it does not cause bowel strain or irritate the kidneys.

NOW THAT SPRING IS HERE

NOW that spring is here, and summer is just around the corner, the minds of millions are occupied with plans for vacationing.

This is an unusual year for the traveler. The mysterious exigencies of international exchange have made tremendous changes so far as paying for one's wanderlust is concerned. The current rate of exchange with most European currencies, for example, is much less favorable than it was a year ago. That American dollar which used to be so potent has literally shrunk in size. A hundred and fifty or two hundred of them are needed to do the work that a hundred used to do.

The result is that where travelers used to first think of Europe, they are now looking elsewhere. They're going either to countries where the money rate is favorable—or they are going to follow the old adage and really see America.

Seeing America is an especially excellent idea. It's a big country—and very few of its citizens have more than a cursory acquaintance with it.

Yes, it's a fine year to look over your own home—the United States. And you'll find a satisfaction in knowing that the money you spend will go to American workmen and industries—and help us toward recovery.

And, if you can't make a trip to see America; it is most interesting to see your own home state, Pennsylvania!

BUT, IT'S NOT ONLY FISHING

Along about this time of year, an imperative desire begins to stir in the breast of the average citizen. He wants, in short, to go afishing; he doesn't much care whether he catches anything, but he does want to go, and the desire makes him restless.

It all begins when the first really spring-like day comes strolling along. The air drifts past his nostrils with an unsettling, winey tang to it, a couple of little white clouds tumble lazily across a blue sky, hopeful birds chirp foolishly amid budding branches—and the fisherman begins to see vision and dream dreams.

His vision, as like as not, will take him a long way back in time and space. He'll see a boyhood scene—a looped streamlet wandering without purpose along the reedy borders of pasture-lots and plots of woodland, with a mossy dam and an old mill somewhere in the distance, and a barefooted youngster in a tattered, over-sized straw hat loafing contentedly toward its banks, a crooked fishing pole over his shoulder and a tomato can full of worms in one fist.

He will see this, or something like it, from his own past and while he will remember all sorts of stirring incidents connected therewith, such as the catching of prodigious sunfish and rock bass and an occasional repulsive-looking bullhead, he will remember chiefly the aura that used to invest such expeditions—that unforgettable, priceless atmosphere of perfect happiness, perfect contentment, and indolent, care-free well-being such as no one but a boy with a fishing pole ever really knows.

And it is the memory of this that unsettles our sober citizen, as he meditates on the business of fishing.

He may not know it, but what he really wants is to recapture an echo of that long-lost time that he knew when he was in knee-breeches.

T. R.'s DAUGHTER AND THE SENATE

Although Alice Roosevelt Longworth is quoted as saying she has no desire to be a member of the United States Senate, the Cincinnati invitation that she be a candidate will attract nation-wide interest. Daughter of a president, widow of a speaker of the house, she would be an outstanding attraction in the American House of Lords.

Some will feet that she might become the Lady Astor of congress. Her close friend, Mrs. Ruth Hanna McCormick Simms, aspired to that role, but while she won the nomination handily, she lost out on election day. However, if Mrs. Longworth is not receptive and if there is no organized movement in her behalf it does not seem likely that she will sit in the senate except as spectator.

The possibilities that would go with a Roosevelt in the upper house—particularly at this time—are illmitless. The daughter of T. R. has many of his traits. Imagine a Roosevelt in the senate, who might, on occasion, hurl thunderbolts at the Roosevelt in the white house. Consider also the probable effect of Mrs. Longworth's presence upon the other senators. Might it not cause Huey Long to behave himself? Would it not have a stimulating effect upon Hiram Johnson, one-time vigorous supporter of T. R.?

At present Mrs. Longworth seems to get great entertainment by sitting in the gallery and watching the antics of the statesmen. Maybe what she has seen and heard from the sideliness may discourage her from trying to be a performer.

The chief fault of government aid is that it changes go-getters into set-and-waiters.

For that matter, any modern book would be a classic if it had no more competition than old-timers had.

In horse and buggy days, the things that shut off the view were called blinders instead of billboards.

The way to tell whether the party in power is liberal or conservative is to observe what group is being investigated.

It's nice to have two cars—a cheap one and a fine one. You can use the cheap one to pull the fine one off when it won't start.

The suggestion now is being made that the government federalize all colleges. At the rate we are going, it may not be long until we reach that point.

A hitch-hiker found wounded beside a road in Ohio, said an automobilist who had given him a lift assaulted and robbed him. Another case of the man biting the dog.

Whether to quit the cabinet or the national Democratic committee chairmanship is the question supposed to be puzzling Mr. Farley, but Affable Jim doesn't appear to be worrying much. He seems to be like most politicians—unwilling to let go of a post until forced to do so.

Once Overs

By J. J. MUNDY

KEEP YOUR SECRETS TO YOURSELF

Are you afraid of what a former friend may tell other people about the discreditable things in which you have taken part?

There are facts about yourself that he would not have known if you had not told him.

Now you realize how foolish you were in imparting these facts to him.

At the time you told him you considered him to be a good friend and you became over-confidential.

You may be placing yourself in the same position again, by telling other friends intimate details of your life.

The details may not be particularly bad, but after the changes they would undergo when retold, they would probably be decidedly unfavorable to you.

Have you ever asked yourself why you can not keep personal matters to yourself.

Is it because you seek sympathy?

Perhaps you think a streak of devilishness, or world-wise background, creates a good impression.

Why you should desire such a reputation is not easy to answer.

The World AND THE *Mud Puddles*

ONLY THIRTY-EIGHT

Less than half a century ago the greatest travel achievement was Nellie Bly's trip around the world in seventy-two days. Now a round-the-world trip in thirty-eight days of actual traveling or fifty-seven days with stopover privileges is a regularly scheduled tour.

The start is at Seattle, then down the coast to San Francisco and Los Angeles, then east across the country by airplane via Dallas, Atlanta, Miami, Hayti, Porto Rico, Trinidad and on south to Pernambuco, Brazil. There passengers the transported across the Atlantic to Seville, Spain.

From that point the tour continues by airplane via Marsailles, Naples, Athens, Bagdad, Calcutta and Saigon. At Saigon a steamer connecting with Hongkong crosses the Pacific, completing the world circuit at Vancouver, a few miles from the starting point.

Just Folks

By EDGAR A. GUEST

TO A KINDY SCHOLAR

He gathered treasures of the mind,
Knew star and stream and flower,
The facts that students grope to find
Through many a tedious hour
Were at his gentle beck and call.
So much of life he know
We though he'd lived, to learn it all,
A century or two.

As men, confronted by a need,
Must borrowing money go,
So we to him would turn and plead
For what we wished to know.
Guessing, to see us at his door,
That we were overtasked.
Out of his wealth of human lore
He gave us all we asked.

He never sought for wealth or fame.
He never asked for praise.
His books a part of him became.
The flowers he loved to raise
Were like his wisdom, kept to give
Free-handed all away.
It truly seemed he chose to live
For us from day to day.

Oh, gentle friend who is no more
Would you had left behind
For us to use whose need is sore
The riches of your mind;
And yet we know, who shed a tear
Beside your flower-strewn grave,
How very much while you were here,
And willingly, you gave.

ANSWER THIS ONE

"Feed a cold and starve a fever," say the doctors. What we would like to know is why every girl we take out has a cold instead of a fever.

ONE PICKING SHE'LL DO

Mrs. Fitzwell (socially inclined): Mr dear, I have picked a husband for you.

Her daughter: Very well; but I tell you emphatically that when it comes to buying the wedding dress I'll select the material myself.

SPEED PERSONIFIED

"I want two boiled eggs, and boil them four minutes exactly: four minutes—you understand."

Waiter: "Yes, sir, I understand. They'll be ready in half a minute."

AN APPLE A DAY

When the doctor arrived he found the patient in tears. "Cheer, up my good man," he said, "you'll pull through all right."

"It isn't that doctor," groaned the patient, "but just think of the money I've spent buying apples to keep you away."

NOW YOU TELL ONE

Dear Hints and Dints: Did I ever tell you this one? I can't vouch for the truthfulness of the story, but it was a favorite yarn and oft told by one of Hartford's prominent lawyers.

An old-time recruit preacher, poor overworked and underpaid, opened his morning service with a prayer like this: "Oh, Lord we come humbly before Thee realizing we are poor weak worms of the dust, and unworthy to approach Thee." And so on, in trembling feeble voice. A rich farmer invited him to his home for dinner. The old fellow was fed on the customary fried chicken and plenty of home made wine. Then he continued on to the next place of worship. Hhis prayer there began: "Oh, Lord, we come boldly before Thee, realizing we are created after Thy image and are only a little lower than the angels." His voice vibrated till the windows on the little country church rattled.

Republicans Find An Issue "Big Men" Have All The Income If Johnson Goes, Who Comes?

By LESLIE EICHEL
Central Press Staff Writer

NEW YORK, April 10.—The Republicans have found an issue. The incomes of "small men" have declined under the NRA—and large incomes have increased!

Ordinarily that would not be the object of attack by Republicans.

But now—

Ernest K. Lindley, Washington correspondent of the New York Herald-Tribune, perhaps inadvertently put the idea into motion with:

"A decline in small taxable incomes, a substantial increase in individual taxable incomes of more than $5,000 and an even larger increase in corporation earnings during 1933 are shown in a preliminary treasury report of income tax collections. . . .

"This indication, inconclusive as it is, that the first nine months of the New Deal witnessed a greater concentration of wealth in the hands of the middle and upper income groups occasioned considerable curiosity and no little concern in administration quarters today."

* * *

REAPPORTIONING

There is no question that so far the benefits of the New Deal have accrued largely to those with the largest incomes.

The second phase of the New Deal, which would spread out the benefits, is that which is being attacked now by those who obtained the first benefits. That is the view of persons favorable to the Roosevelt administration.

Scuttling of the second phase of the New Deal would effectively save the larger incomes, the Rooseveltian adherents assert.

* * *

IF JOHNSON GOES?

The question remains: Where does President Roosevelt stand?

If he desires to "distribute wealth" he can put all the teeth he desires into the NRA. From what this writer has seen in Washington and throughout the country, the president has only to say the word, and he will get what he desires.

General Hugh Johnson, tired out, soon will retire as NRA administrator. Some business leaders may wish he were back. It was he who announced that a renewal of the licensing feature of the NRA would not be asked o congress. This feature is the greatest club the NRA has.

If Johnson, however, goes out—will the new man be less of a compromising nature than General Johnson? The general roared like a lion but roamed the industrial fields like a sheep.

President Roosevelt may have—is said to have—more potent ideas than the general on the NRA.

The president will have to meet the Huey Long "Distribute the Wealth" legions and the labor unions with continued activity. More than that, he will have to devise a far greater spread of jobs to keep the masses contented.

* * *

HARRIMAN?

Will young W. Averell Harriman, 42-year-old chief of the Harriman-controlled Union Pacific railroad, succeed Johnson? He already virtually is second in command in the NRA. His sister, Mrs. Mary Rumsey, heads the consumers' board.

Harriman is close to the president. He never uses such terms as "crack down". But he may "crack down" more than the leonine General Johnson.

Yet, in the final analysis, New York hardly believes Harriman will be chosen to succeed Johnson. The president may choose some one to please the western progressives and the farmers.

Such a person would not please Wall Street.

WAGES

Wall Street is beginning to soften its criticism of "costs going up because wages are increased". Here is a paragraph in the New York Times financial column:

"It is estimated conservatively that the wages of more than a million workers' have been increased in a week. While the problem of absorbing additional labor costs is giving concern to some employers, the effect on general business is expected to be highly stimulating."

History's Great Days—April 10, 1790—First law for protection of U. S. inventors was enacted by the Congress and authority given the State Department to issue patents. First of the three patents issued in the first year of the law was granted Samuel Hopkins of Vermont, for a process of making pot and pearl ashes "found out by Sybille his wife"

(It was 19 years before a woman obtained a patient in her own name. First: Mary Kies, inventor of a method of weaving straw with silk or thread.

April 10, 1864—Archduke Maximilian Hapsburg of Austria, 32, accepted the proffer of a crown from Native deputies bribed by French usurpers and became emperor of Mexico, the next to last monarch in the Americas. France had dreams of re-establishing its influence in North America by making a puppet state of Mexico.

The U. S. was too busy with internecine war to take action against this infraction of the Monroe Doctrine; and by the time it WAS able to act, the Mexicans had killed their imported emperor.

April 10, 1866—American Society for Prevention of Cruelty to Animals was organized by Henry Bergh 43, who had seen animals being beaten in the streets of St. Petersburg, Russia and had resolved to devote the rest of the life to protecting them from mistreatment in the United States.

He turned inventor to devise a clay-pigeon for trap shooting purposes and have the means to induce marksmen to give up their practice of using living birds. The clay-pigeon, as all sportsmen know, is a thin, hollow disk of clay sprung from a trap. In its passage through the air resembles the flight of a bird.

Bergh became aware there was more important work than protecting animals when he saw a child being beaten in a New York street. He founded the Society for the Prevention of Cruelty to Children, made that his chief interest thereafter.

April 10, 1876—A. T. Stewart, New York merchant, died at 73, leaving 40 million dollars.

His body was to have no rest for four years. Body-snatchers stole it from the churchyard of St. Mark's-in-the-Vouwerie, in New York, held it for ransome which was not paid until 1880 when the ghouls exchanged a sunny sack of bones for $20,000.

Weekly Health Talk

"Soft living has created a very definite tendency, especially among young people, to slouch and slump. Relaxation, which is overworked in nearly all departments of life, is noticeable in this physical aspect. Consequently, many physicians are reporting rounded shoulders and weak abdominal walls with sometimes an association of nervous disturbances. Apparently the average person is not sufficiently informed on the detrimental possibilities of habitually bad posture," states Dr. Theodore B. Appel, state secretary of health.

"Faulty habits of walking, standing and sitting very easily can disturb the normal relation of organs, as well as the proper circulation of the blood. In extreme cases misplacement or 'falling' of the abdominal and pelvic organs, and even of the stomach, can directly result from this type of neglect. Barring an actual disease that interferes with the muscular or bony bodily structures thus preventing normal support, laziness and indifference are the only reasons for bad posture.

"The advantage, both physical and mental, derived from a snappy carriage is well known in military circles. In fact, if one be observant he will note that the majority of today's successful men and women carry themselves with a measure of distinction. Mental agility, resourcefulness and stamina somehow just naturally carry with them physical alertness and a soldierly set-up.

"However, after years of poor posture, it is a real problem to correct it. Mental attitude will play a large part in remedying the situation, as indeed has been the case in developing wrong carriage in the first instance. This will be no mean hurdle to overcome. A very definite amount of concentration will be necessary if results are to be permanently achieved.

"Those who are young or middle aged could with much profit join a gymnasium class and thus receive the benefits of instruction in exercises recommended for the strengthening of the abdominal muscles and for restoring the organs to normal position. The family physician should be consulted in this connection and barring gymnasium facilities can advise on setting-up and muscle-correcting home exercises.

"But the point to be emphasized is that academic information on the subject and disciplining the mind to apply such knowledge are two very different matters and the latter demands a real and prolonged effort.

"Good posture is a physical, social and business asset. But its real value lies in the physical and mental reactions to the subject who achieves it. In short, from all angles most decidedly it does not pay to be a slouch."

NOW THAT SPRING IS HERE

NOW that spring is here, and summer is just around the corner, the minds of millions are occupied with plans for vacationing.

This is an unusual year for the traveler. The mysterious exigencies of international exchange have made tremendous changes so far as paying for one's wanderlust is concerned. The current rate of exchange with most European currencies, for example, is much less favorable than it was a year ago. That American dollar which used to be so potent has literally shrunk in size. A hundred and fifty or two hundred of them are needed to do the work that a hundred used to do.

The result is that where travelers used to first think of Europe, they are now looking elsewhere. They're going either to countries where the money rate is favorable—or they are going to follow the old adage and really see America.

Seeing America is an especially excellent idea. It's a big country—and very few of its citizens have more than a cursory acquaintance with it.

Yes, it's a fine year to look over your own home—the United States. And you'll find a satisfaction in knowing that the money you spend will go to American workmen and industries—and help us toward recovery.

And, if you can't make a trip to see America; it is most interesting to see your own home state, Pennsylvania!

BUT, IT'S NOT ONLY FISHING

Along about this time of year, an imperative desire begins to stir in the breast of the average citizen. He wants, in short, to go afishing; he doesn't much care whether he catches anything, but he does want to go, and the desire makes him restless.

It all begins when the first really spring-like day comes strolling along. The air drifts past his nostrils with an unsettling, winey tang to it, a couple of little white clouds tumble lazily across a blue sky, hopeful birds chirp foolishly amid budding branches—and the fisherman begins to see vision and dream dreams.

His vision, as like as not, will take him a long way back in time and space. He'll see a boyhood scene—a looped streamlet wandering without purpose along the reedy borders of pasture-lots and plots of woodland, with a mossy dam and an old mill somewhere in the distance, and a barefooted youngster in a tattered, over-sized straw hat loafing contentedly toward its banks, a crooked fishing pole over his shoulder and a tomato can full of worms in one fist.

He will see this, or something like it, from his own past and while he will remember all sorts of stirring incidents connected therewith, such as the catching of prodigious sunfish and rock bass and an occasional repulsive-looking bullhead, he will remember chiefly the aura that used to invest such expeditions—that unforgettable, priceless atmosphere of perfect happiness, perfect contentment, and indolent, care-free well-being such as no one but a boy with a fishing pole ever really knows.

And it is the memory of this that unsettles our sober citizen, as he meditates on the business of fishing.

He may not know it, but what he really wants is to recapture an echo of that long-lost time that he knew when he was in knee-breeches.

T. R.'s DAUGHTER AND THE SENATE

Although Alice Roosevelt Longworth is quoted as saying she has no desire to be a member of the United States Senate, the Cincinnati invitation that she be a candidate will attract nation-wide interest. Daughter of a president, widow of a speaker of the house, she would be an outstanding attraction in the American House of Lords.

Some will feet that she might become the Lady Astor of congress. Her close friend, Mrs. Ruth Hanna McCormick Simms, aspired to that role, but while she won the nomination handily, she lost out on election day. However, if Mrs. Longworth is not receptive and if there is no organized movement in her behalf it does not seem likely that she will sit in the senate except as spectator.

The possibilities that would go with a Roosevelt in the upper house—particularly at this time—are limitless. The daughter of T. R. has many of his traits. Imagine a Roosevelt in the senate, who might, on occasion, hurl thunderbolts at the Roosevelt in the white house. Consider also the probable effect of Mrs. Longworth's presence upon the other senators. Might it not cause Huey Long to behave himself? Would it not have a stimulating effect upon Hiram Johnson, one-time vigorous supporter of T. R.?

At present Mrs. Longworth seems to get great entertainment by sitting in the gallery and watching the antics of the statesmen. Maybe what she has seen and heard from the sideliness may discourage her from trying to be a performer.

The chief fault of government aid is that it changes go-getters into set-and-waiters.

KEEP YOUR SECRETS TO YOURSELF

Are you afraid of what a former friend may tell other people about the discreditable things in which you have taken part?

There are facts about yourself that he would not have known if you had not told him.

Now you realize how foolish you were in imparting these facts to him.

At the time you told him you considered him to be a good friend and you became over-confidential.

You may be placing yourself in the same position again, by telling other friends intimate details of your life.

The details may not be particularly bad, but after the changes they would undergo when retold, they would probably be decidedly unfavorable to you.

Have you ever asked yourself why you can not keep personal matters to yourself.

Is it because you seek sympathy?

Perhaps you think a streak of devilishness, or world-wise background, creates a good impression.

Why you should desire such a reputation is not easy to answer.

Less than half a century ago the greatest travel achievement was Nellie Bly's trip around the world in seventy-two days. Now a round-the-world trip in thirty-eight days of actual traveling or fifty-seven days with stopover privileges is a regularly scheduled tour.

The start is at Seattle, then down the coast to San Francisco and Los Angeles, then east across the country by airplane via Dallas, Atlanta, Miami, Hayti, Porto Rico, Trinidad and on south to Pernambuco, Brazil. There passengers the transported across the Atlantic to Seville, Spain.

From that point the tour continues by airplane via Marsailles, Naples, Athens, Bagdad, Calcutta and Saigon. At Saigon a steamer connecting with Hongkong crosses the Pacific, completing the world circuit at Vancouver, a few miles from the starting point.

Just Folks

By EDGAR A. GUEST

TO A KINDY SCHOLAR

He gathered treasures of the mind,
Knew star and stream and flower.
The facts that students grope to find
Through many a tedious hour
Were at his gentle beck and call.
So much of life he know
We though he'd lived, to learn it all,
A century or two.

As men, confronted by a need,
Must borrowing money go,
So we to him would turn and plead
For what we wished to know.
Guessing, to see us at his door,
That we were overtasked,
Out of his wealth of human lore
He gave us all we asked.

He never sought for wealth or fame.
He never asked for praise.
His books a part of him became.
The flowers he loved to raise
Were like his wisdom, kept to give
Free-handed all away.
It truly seemed he chose to live
For us from day to day.

Oh, gentle friend who is no more
Would you had left behind
For us to use whose need is sore
The riches of your mind;
And yet we know, who shed a tear
Beside your flower-strewn grave,
How very much while you were here,
And willingly, you gave.

Dear Hints and Dints: Did I ever tell you this one? I can't vouch for the truthfulness of the story, but it was a favorite yarn and oft told by one of Hartford's prominent lawyers.

An old-time recruit preacher, poor overworked and underpaid, opened his morning service with a prayer like this: "Oh, Lord we come humbly before Thee realizing we are poor weak worms of the dust, and unworthy to approach Thee." And so on, in trembling feeble voice. A rich farmer invited him to his home for dinner. The old fellow was fed on the customary fried chicken and plenty of home made wine. Then he continued on to the next place of worship. Hhis prayer there began: "Oh, Lord, we come boldly before Thee, realizing we are created after Thy image and are only a little lower than the angels." His voice vibrated till the windows on the little country church rattled.

Republicans Find An Issue "Big Men" Have All The Income If Johnson Goes, Who Comes?

By LESLIE EICHEL
Central Press Staff Writer

NEW YORK, April 10.—The Republicans have found an issue. The incomes of "small men" have declined under the NRA—and large incomes have increased!

Ordinarily that would not be the object of attack by Republicans.

But now—

Ernest K. Lindley, Washington correspondent of the New York Herald-Tribune, perhaps inadvertently put the idea into motion with:

"A decline in small taxable incomes, a substantial increase in individual taxable incomes of more than $5,000 and an even larger increase in corporation earnings during 1933 are shown in a preliminary treasury report of income tax collections. . . .

"This indication, inconclusive as it is, that the first nine months of the New Deal witnessed a greater concentration of wealth in the hands of the middle and upper income groups occasioned considerable curiosity and no little concern in administration quarters today."

REAPPORTIONING

There is no question that so far the benefits of the New Deal have accrued largely to those with the largest incomes.

The second phase of the New Deal, which would spread out the benefits, is that which is being attacked now by those who obtained the first benefits. That is the view of persons favorable to the Roosevelt administration.

Scuttling of the second phase of the New Deal would effectively save the larger incomes, the Rooseveltian adherents assert.

IF JOHNSON GOES?

The question remains: Where does President Roosevelt stand?

If he desires to "distribute wealth" he can put all the teeth he desires into the NRA. From what this writer has seen in Washington and throughout the country, the president has only to say the word, and he will get what he desires.

General Hugh Johnson, tired out, soon will retire as NRA administrator. Some business leaders may wish he were back. It was he who announced that a renewal of the licensing feature of the NRA would not be asked o congress. This feature is the greatest club the NRA has.

If Johnson, however, goes out—will the new man be less of a compromising nature than General Johnson? The general roared like a lion but roamed the industrial fields like a sheep.

President Roosevelt may have—is said to have—more potent ideas than the general on the NRA.

The president will have to meet the Huey Long "Distribute the Wealth" legions and the labor unions with continued activity. More than that, he will have to devise a far greater spread of jobs to keep the masses contented.

HARRIMAN?

Will young W. Averell Harriman, 42-year-old chief of the Harriman-controlled Union Pacific railroad, succeed Johnson? He already virtually is second in command in the NRA. His sister, Mrs. Mary Rumsey, heads the consumers' board.

Harriman is close to the president. He never uses such terms as "crack down". But he may "crack down" more than the leonine General Johnson.

Yet, in the final analysis, New York hardly believes Harriman will be chosen to succeed Johnson. The president may choose some one to please the western progresives and the farmers.

Such a person would not please Wall Street.

WAGES

Wall Street is beginning to soften its criticism of "costs going up because wages are increased". Here is a paragraph in the New York Times financial column:

"It is estimated conservatively that the wages of more than a million workers' have been increased in a week. While the problem of absorbing additional labor costs is giving concern to some employers, the effect on general business is expected to be highly stimulating."

TUESDAY APRIL 10.

History's Great Days—April 10, 1790—First law for protection of U. S. inventors was enacted by the Congress and authority given the State Department to issue patents. First of the three patents issued in the first year of the law was granted Samuel Hopkins of Vermont, for a process of making pot and pearl ashes "found out by Sybille his wife"

(It was 19 years before a woman obtained a patent in her own name. First: Mary Kies, inventor of a method of weaving straw with silk or thread.

April 10, 1864—Archduke Maximilian Hapsburg of Austria, 32, accepted the proffer of a crown from Native deputies bribed by French usurpers and became emperor of Mexico, the next to last monarch in the Americas. France had dreams of re-establishing its influence in North America by making a puppet state of Mexico.

The U. S. was too busy with internecine war to take action against this infraction of the Monroe Doctrine: and by the time it WAS able to act, the Mexicans had killed their imported emperor.

April 10, 1866—American Society for Prevention of Cruelty to Animals was organized by Henry Bergh 43, who had seen animals being beaten in the streets of St. Petersburg, Russia and had resolved to devote the rest of the life to protecting them from mistreatment in the United States.

He turned inventor to devise a clay-pigeon for trap shooting purposes and have the means to induce marksmen to give up their practice of using living birds. The clay-pigeon, as all sportsmen know, is a thin, hollow disk of clay sprung from a trap. In its passage through the air resembles the flight of a bird.

Bergh became aware there was more important work than protecting animals when he saw a child being beaten in a New York street. He founded the Society for the Prevention of Cruelty to Children, made that his chief interest thereafter.

April 10, 1876—A. T. Stewart, New York merchant, died at 73, leaving 40 million dollars.

His body was to have no rest for four years. Body-snatchers stole it from the churchyard of St. Mark's-in-the-Vouwerie, in New York, held it for ransome which was not paid until 1880 when the ghouls exchanged a gunny sack of bones for $20,000.

April 10, 1934—Delegates to a state-wide convention in Michigan voted 99 to 1 in the affirmative, made the Wolverine state the first to register approval of the 18th amendment.

Weekly Health Talk

"Soft living has created a very definite tendency, especially among young people, to slouch and slump. Relaxation, which is overworked in nearly all departments of life, is noticeable in this physical aspect. Consequently, many physicians are reporting rounded shoulders and weak abdominal walls with sometimes an association of nervous disturbances. Apparently the average person is not sufficiently informed on the detrimental possibilities of habitually bad posture," states Dr. Theodore B. Appel, state secretary of health.

"Faulty habits of walking, standing and sitting very easily can disturb the normal relation of organs, as well as the proper circulation of the blood. In extreme cases misplacement or 'falling' of the abdominal and pelvic organs, and even of the stomach, can directly result from this type of neglect. Barring an actual disease that interferes with the muscular or bony bodily structures thus preventing normal support, laziness and indifference are the only reasons for bad posture.

"The advantage, both physical and mental, derived from a snappy carriage is well known in military circles. In fact, if one be observant he will note that the majority of today's successful men and women carry themselves with a measure of distinction. Mental agility, resourcefulness and stamina somehow just naturally carry with them physical alertness and a soldierly set-up.

"However, after years of poor posture, it is a real problem to correct it. Mental attitude will play a large part in remedying the situation, as indeed has been the case in developing wrong carriage in the first instance. This will be no mean hurdle to overcome. A very definite amount of concentration will be necessary if results are to be permanently achieved.

"Those who are young or middle aged could with much profit join a gymnasium class and thus receive the benefits of instruction in exercises recommended for the strengthening of the abdominal muscles and for restoring the organs to normal position. The family physician should be consulted in this connection and barring gymnasium facilities can advise on setting-up and muscle-correcting home exercises.

"But the point to be emphasized is that academic information on the subject and disciplining the mind to apply such knowledge are two very different matters and the latter demands a real and prolonged effort.

"Good posture is a physical, social and business asset. But its real value lies in the physical and mental reactions to the subject who achieves it. In short, from all angles most decidedly it does not pay to be a slouch."

NOW THAT SPRING IS HERE

NOW that spring is here, and summer is just around the corner, the minds of millions are occupied with plans for vacationing.

This is an unusual year for the traveler. The mysterious exigencies of international exchange have made tremendous changes so far as paying for one's wanderlust is concerned. The current rate of exchange with most European currencies, for example, is much less favorable than it was a year ago. That American dollar which used to be so potent has literally shrunk in size. A hundred and fifty or two hundred of them are needed to do the work that a hundred used to do.

The result is that where travelers used to first think of Europe, they are now looking elsewhere. They're going either to countries where the money rate is favorable—or they are going to follow the old adage and really see America.

Seeing America is an especially excellent idea. It's a big country—and very few of its citizens have more than a cursory acquaintance with it.

Yes, it's a fine year to look over your own home—the United States. And you'll find a satisfaction in knowing that the money you spend will go to American workmen and industries—and help us toward recovery.

And, if you can't make a trip to see America; it is most interesting to see your own home state, Pennsylvania!

BUT, IT'S NOT ONLY FISHING

Along about this time of year, an imperative desire begins to stir in the breast of the average citizen. He wants, in short, to go afishing; he doesn't much care whether he catches anything, but he does want to go, and the desire makes him restless.

It all begins when the first really spring-like day comes strolling along. The air drifts past his nostrils with an unsettling, winey tang to it, a couple of little white clouds tumble lazily across a blue sky, hopeful birds chirp foolishly amid budding branches—and the fisherman begins to see vision and dream dreams.

His vision, as like as not, will take him a long way back in time and space. He'll see a boyhood scene—a looped streamlet wandering without purpose along the reedy borders of pasture-lots and plots of woodland, with a mossy dam and an old mill somewhere in the distance, and a barefooted youngster in a tattered, over-sized straw hat loafing contentedly toward its banks, a crooked fishing pole over his shoulder and a tomato can full of worms in one fist.

He will see this, or something like it, from his own past and while he will remember all sorts of stirring incidents connected therewith, such as the catching of prodigious sunfish and rock bass and an occasional repulsive-looking bullhead, he will remember chiefly the aura that used to invest such expeditions—that unforgettable, priceless atmosphere of perfect happiness, perfect contentment, and indolent, care-free well-being such as no one but a boy with a fishing pole ever really knows.

And it is the memory of this that unsettles our sober citizen, as he meditates on the business of fishing.

He may not know it, but what he really wants is to recapture an echo of that long-lost time that he knew when he was in knee-breeches.

T. R.'s DAUGHTER AND THE SENATE

Although Alice Roosevelt Longworth is quoted as saying she has no desire to be a member of the United States Senate, the Cincinnati invitation that she be a candidate will attract nation-wide interest. Daughter of a president, widow of a speaker of the house, she would be an outstanding attraction in the American House of Lords.

Some will feet that she might become the Lady Astor of congress. Her close friend, Mrs. Ruth Hanna McCormick Simms, aspired to that role, but while she won the nomination handily, she lost out on election day. However, if Mrs. Longworth is not receptive and if there is no organized movement in her behalf it does not seem likely that she will sit in the senate except as spectator.

The possibilities that would go with a Roosevelt in the upper house—particularly at this time—are limitless. The daughter of T. R. has many of his traits. Imagine a Roosevelt in the senate, who might, on occasion, hurl thunderbolts at the Roosevelt in the white house. Consider also the probable effect of Mrs. Longworth's presence upon the other senators. Might it not cause Huey Long to behave himself? Would it not have a stimulating effect upon Hiram Johnson, one-time vigorous supporter of T. R.?

At present Mrs. Longworth seems to get great entertainment by sitting in the gallery and watching the antics of the statesmen. Maybe what she has seen and heard from the sideliness may discourage ner from trying to be a performer.

The chief fault of government aid is that it changes go-getters into set-and-waiters.

KEEP YOUR SECRETS TO YOURSELF

Are you afraid of what a former friend may tell other people about the discreditable things in which you have taken part?

There are facts about yourself that he would not have known if you had not told him.

Now you realize how foolish you were in imparting these facts to him.

At the time you told him you considered him to be a good friend and you became over-confidential.

You may be placing yourself in the same position again, by telling other friends intimate details of your life.

The details may not be particularly bad, but after the changes they would undergo when retold, they would probably be decidedly unfavorable to you.

Have you ever asked yourself why you can not keep personal matters to yourself.

Is it because you seek sympathy?

Perhaps you think a streak of devilishness, or world-wise background, creates a good impression.

Why you should desire such a reputation is not easy to answer.

The World AND THE Mud Puddles

ONLY THIRTY-EIGHT

Less than half a century ago the greatest travel achievement was Nellie Bly's trip around the world in seventy-two days. Now a round-the-world trip in thirty-eight days of actual traveling or fifty-seven days with stopover privileges is a regularly scheduled tour.

The start is at Seattle, then down the coast to San Francisco and Los Angeles, then east across the country by airplane via Dallas, Atlanta, Miami, Hayti, Porto Rico, Trinidad and on south to Pernambuco, Brazil. There passengers the transported across the Atlantic to Seville, Spain.

From that point the tour continues by airplane via Marsailles, Napies, Athens, Bagdad, Calcutta and Saigon. At Saigon a steamer connecting with Hongkong crosses the Pacific, completing the world circuit at Vancouver, a few miles from the starting point.

Just Folks

By EDGAR A. GUEST

TO A KINDY SCHOLAR

He gathered treasures of the mind,
Knew star and stream and flower.
The facts that students grope to find
Through many a tedious hour
Were at his gentle beck and call.
So much of life he know
We though he'd lived, to learn it all,
A century or two.

As men, confronted by a need,
Must borrowing money go,
So we to him would turn and plead
For what we wished to know.
Guessing, to see us at his door,
That we were overtasked,
Out of his wealth of human lore
He gave us all we asked.

He never sought for wealth or fame.
He never asked for praise.
His books a part of him became.
The flowers he loved to raise
Were like his wisdom, kept to give
Free-handed all away.
It truly seemed he chose to live
For us from day to day.

Oh, gentle friend who is no more
Would you had left behind
For us to use whose need is sore
The riches of your mind;
And yet we know, who shed a tear
Beside your flower-strewn grave,
How very much while you were here,
And willingly, you gave.

NOW YOU TELL ONE

Dear Hints and Dints: Did I ever tell you this one? I can't vouch for the truthfulness of the story, but it was a favorite yarn and oft told by one of Hartford's prominent lawyers.

An old-time recruit preacher, poor overworked and underpaid, opened his morning service with a prayer like this: "Oh, Lord we come humbly before Thee realizing we are poor weak worms of the dust, and unworthy to approach Thee." And so on, in trembling feelble voice. A rich farmer invited him to his home for dinner. The old fellow was fed on the customary fried chicken and plenty of home made wine. Then he continued on to the next place of worship. Hhis prayer there began: "Oh, Lord, we come boldly before Thee, realizing we are created after Thy image and are only a little lower than the angels." His voice vibrated till the windows on the little country church rattled.

The World At A Glance

Republicans Find An Issue "Big Men" Have All The Income If Johnson Goes, Who Comes?

By LESLIE EICHEL
Central Press Staff Writer

NEW YORK, April 10.—The Republicans have found an issue. The incomes of "small men" have declined under the NRA—and large incomes have increased!

Ordinarily that would not be the object of attack by Republicans.

But now—

Ernest K. Lindley, Washington correspondent of the New York Herald-Tribune, perhaps inadvertently put the idea into motion with:

"A decline in small taxable incomes, a substantial increase in individual taxable incomes of more than $5,000 and an even larger increase in corporation earnings during 1933 are shown in a preliminary treasury report of income tax collections. . . .

"This indication, inconclusive as it is, that the first nine months of the New Deal witnessed a greater concentration of wealth in the hands of the middle and upper income groups occasioned considerable curiosity and no little concern in administration quarters today."

* * *

REAPPORTIONING

There is no question that so far the benefits of the New Deal have accrued largely to those with the largest incomes.

The second phase of the New Deal, which would spread out the benefits, is that which is being attacked now by those who obtained the first benefits. That is the view of persons favorable to the Roosevelt administration.

Scuttling of the second phase of the New Deal would effectively save the larger incomes, the Rooseveltian adherents assert.

* * *

IF JOHNSON GOES?

The question remains: Where does President Roosevelt stand?

If he desires to "distribute wealth" he can put all the teeth he desires into the NRA. From what this writer has seen in Washington and throughout the country, the president has only to say the word, and he will get what he desires.

General Hugh Johnson, tired out, soon will retire as NRA administrator. Some business leaders may wish he were back. It was he who announced that a renewal of the licensing feature of the NRA would not be asked o congress. This feature is the greatest club the NRA has.

If Johnson, however, goes out—will the new man be less of a compromising nature than General Johnson? The general roared like a lion but roamed the industrial fields like a sheep.

President Roosevelt may have—is said to have—more potent ideas than the general on the NRA.

The president will have to meet the Huey Long "Distribute the Wealth" legions and the labor unions with continued activity. More than that, he will have to devise a far greater spread of jobs to keep the masses contented.

* * *

HARRIMAN?

Will young W. Averell Harriman, 42-year-old chief of the Harriman-controlled Union Pacific railroad, succeed Johnson? He already virtually is second in command in the NRA. His sister, Mrs. Mary Rumsey, heads the consumers' board.

Harriman is close to the president. He never uses such terms as "crack down". But he may "crack down" more than the leonine General Johnson.

Yet, in the final analysis, New York hardly believes Harriman will be chosen to succeed Johnson. The president may choose some one to please the western progressives and the farmers.

Such a person would not please Wall Street.

* * *

WAGES

Wall Street is beginning to soften its criticism of "costs going up because wages are increased". Here is a paragraph in the New York Times financial column:

"It is estimated conservatively that the wages of more than a million workers' have been increased in a week. While the problem of absorbing additional labor costs is giving concern to some employers, the effect on general business is expected to be highly stimulating."

Relaxation, which is overworked in nearly all departments of life, is noticeable in this physical aspect. Consequently, many physicians are reporting rounded shoulders and weak abdominal walls with sometimes an association of nervous disturbances. Apparently the average person is not sufficiently informed on the detrimental possibilities of habitually bad posture," states Dr. Theodore B. Appel, state secretary of health.

"Faulty habits of walking, standing and sitting very easily can disturb the normal relation of organs, as well as the proper circulation of the blood. In extreme cases misplacement or 'falling' of the abdominal and pelvic organs, and even of the stomach, can directly result from this type of neglect. Barring an actual disease that interferes with the muscular or bony bodily structures thus preventing normal support, laziness and indifference are the only reasons for bad posture.

"The advantage, both physical and mental, derived from a snappy carriage is well known in military circles. In fact, if one be observant he will note that the majority of today's successful men and women carry themselves with a measure of distinction. Mental agility, resourcefulness and stamina somehow just naturally carry with them physical alertness and a soldierly set-up.

"However, after years of poor posture, it is a real problem to correct it. Mental attitude will play a large part in remedying the situation, as indeed has been the case in developing wrong carriage in the first instance. This will be no mean hurdle to overcome. A very definite amount of concentration will be necessary if results are to be permanently achieved.

"Those who are young or middle aged could with much profit join a gymnasium class and thus receive the benefits of instruction in exercises recommended for the strengthening of the abdominal muscles and for restoring the organs to normal position. The family physician should be consulted in this connection and barring gymnasium facilities can advise on setting-up and muscle-correcting home exercises.

"But the point to be emphasized is that academic information on the subject and disciplining the mind to apply such knowledge are two very different matters and the latter demands a real and prolonged effort.

"Good posture is a physical, social and business asset. But its real value lies in the physical and mental reactions to the subject who achieves it. In short, from all angles most decidedly it does not pay to be a slouch."

Heart Balm Of $518,000 Sought By Prize Beauty

Miss Angela Joyce, "Miss England" Beauty Winner, Sues Lord Revelstoke

(International News Service)

LONDON, April 10.—Lord Revelstoke, scion of one of Britain's wealthiest banking families, has been served with a writ asking 100,000 pounds (about $518,000) damages for breach of promise filed by Attorney acting for Miss Angela Joyce former "Miss England" beauty now in Hollywood, the lawyers announced today.

Maurice Arram, a partner of the London legal firm of Arram, Fairfield and Company, made the announcement. "The write has been issued and served, and we have retained the services of Sir Patrick Hastings, one of the most eminent king's counsellors who will be instructed to ask the jury for 100,000 pounds damages for Miss Joyce," Arram said.

It was understood Miss Joyce claimed meeting Lord Revelstoke in a London night club about two years ago, and not knowing who he was, fell in love with him.

As a result of parental objection he ceased his attentions to her after promising marriage, Miss Joyce claimed. Since then he has married someone else.

Plans Made For Rally Of All Former And Present Members, Followed By Banquet

Plans have been completed for the home-coming Sabbath of the Queen Esther class of the Third U. P. church taught by Mrs. Bernard Hook which will be held on Sunday, April 15. A special program has been arranged by the program committee composed of Miss Thelma Rose, Miss Grace Uber, Miss Betty Gray, Miss Marietta Daugherty and Mrs. Wilber McKibben. The committee has secured Miss Helen Kyle as the main speaker on the program.

The occasion will mark the tenth anniversary of the organization of the class. Members from Ellwood City, Beaver Falls, Pittsburgh and Youngstown, O., are expected to be here for the day.

Every year the home-coming is followed by their annual banquet and this is to be held on April 16, which will be open to all those present on the home-coming Sabbath.

Wide Variety Of Questions Asked

An idea of the wide variety of reference questions asked at the south side library—and answered—can be obtained from the following list jotted down at random the other day: (Mrs. Gladys Johnston, branch librarian, and Mrs. Edith Allen were in charge and led the questioners to the answers.)

Charlemagne, Greeks, Greek kings, "The Wiggin," "The Round Table," Book of the Nights, Spartans, Doric, Ionic, Corinthians, Pilgrims, contribution of the Greek, Norseman, Feudalism, Phoenicians, Rinehart, Rice, Bacheller, Craik, Abbott and Wharton.

Invite Council To Water Meet

Alfred W. Chilton, commissioner of the Chamber of Commerce, a first vice president of the National Rivers and Harbors Congress has invited city officials to attend the pre-convention of the congress at Washington, April 28, as the proposed Beaver-Mahoning canal will be discussed.

COAL TONNAGE FALLS, MINE TROUBLE BLAMED

Strike activities in the Pittsburgh district coal mining belt and in the West Virginia fields noticeably affected tonnage of coal trains operating through the New Castle district, during the past week, it was learned in railroad circles today.

"There has been a gradual fall-off in the mounting tonnage since the last two days of March," reported one road office.

Norma Shearer Is Declared As Best Dressed On Screen

Norma Shearer Supplants Late Lillian Tashman, As Best Dressed In Hollywood

(International News Service)

HOLLYWOOD, April 10.—Norma Shearer is the best dressed woman of the screen.

This was the consensus today of those who should know—the famous designers of Hollywood who create motion picture fashions.

During her life time Lilyan Tashman was popularly known as the best dressed woman in motion pictures. Authorities usually qualified this by naming her as one of the three best dressed women in pictures.

Miss Shearer was always mentioned as among the three "top notchers" and in a survey of four of the leading designers, three named her among their selections of "the best dressed" screen actress.

Kay Francis was named by two of the four. None of the experts cared to narrow down to one actress.

In addition to Miss Shearer and Miss Francis, the experts named as among the best dressed women in Hollywood, the following:

Marion Davels, Carole Lombard, Claudette Colbert, Ann Harding, Dolores Del Rio, Katharine Hepburn, Irene Dunne and Dorothy Lee.

AROUND CITY HALL

Police chronology for 24 hours ending 3:30 p. m. April 9: eight arrests on charges as follows: keepers of disorderly house 2, visitors therein 6.

Chicken feed: It is quite apparent that the boys and girls who like moonshine are getting it cheap, the current price being 50 cents a quart, so when police raided a place recently the proprietress could not gain her freedom unless she put up a $50 cash bond. She gave the police sergeant 200 quarters. By the time he got through counting them he could have qualified for a teller's post.

Apparently police are no respector of "Who's Who". During the past few days they have raided several places and lo, among those caught in the room eyeing the galloping dominoes were two gentlemen who have quite a vote getting influence. However, they were not charged extra for their vote getting influence. They committed no serious crime and took the blow without wincing, showing they can take it—when they have to.

Slick Not so Slick: Several days ago police descended upon a room where they said crap shooting was in progress. They seized five dimes. The proprietor declared "We weren't gambling when the police came in." Mayor Mayne gazed at one visitor and said: "Now the truth!" The visitor smiled and remarked: "Well, mayor, the truth is this, Slick was too late getting his money up from the table." The mayor freed the visitors, with the proviso—"Double fine next time.' The proprietor paid a fine.

Woodman, Woodman, Spare That Tree: This role was enacted several days ago when a tree was alleged to be a hazard and taken down following orders by Councilman Joe Alexander. A woman who resided in the section is said to have objected to the tree being cut down. However, the tree was cut off even with the sidewalk. Council ratified his action.

In the Consolidated Act of Third Class cities, it says that a copy of all bills and all amendments thereto relating to the location of any public building must be furnished to the planning commission, according to the City Planning commission. The intent of the act, the planners report, is to have their recommendations carry weight.

No more city licenses will be granted to persons who wish to use Washington street as a salesroom, according to Chief Haven. A salesman obtained a license recently. The police kept the salesmen moving every half hour. Things will be different in the future. No license will be issued and this will save lots of trouble.

Now is the time of year when persons who like civic beauty should frown on anyone who tosses rubbish rather than in the place it belongs. ....Council will view three properties soon to decide whether or not they are nuisances....Some properties haven't been reported to council as nuisances but council probably knows some that are. And as they say in the movies: "Camera! Action!"

Heart Balm Of $518,000 Sought By Prize Beauty

Miss Angela Joyce, "Miss England" Beauty Winner, Sues Lord Revelstoke

(International News Service)

LONDON, April 10.—Lord Revelstoke, scion of one of Britain's wealthiest banking families, has been served with a writ asking 100,000 pounds (about $518,000) damages for breach of promise filed by Attorney acting for Miss Angela Joyce former "Miss England" beauty now in Hollywood, the lawyers announced today.

Maurice Arram, a partner of the London legal firm of Arram, Fairfield and Company, made the announcement. "The write has been issued and served, and we have retained the services of Sir Patrick Hastings, one of the most eminent king's counsellors who will be instructed to ask the jury for 100,000 pounds damages for Miss Joyce," Arram said.

It was understood Miss Joyce claimed meeting Lord Revelstoke in a London night club about two years ago, and not knowing who he was, fell in love with him.

As a result of parental objection he ceased his attentions to her after promising marriage, Miss Joyce claimed. Since then he has married someone else.

Queen Esther Class Plans Home-Coming

Plans Made For Rally Of All Former And Present Members, Followed By Banquet

Plans have been completed for the home-coming Sabbath of the Queen Esther class of the Third U. P. church taught by Mrs. Bernard Hook which will be held on Sunday, April 15. A special program has been arranged by the program committee composed of Miss Thelma Rose, Miss Grace Uber, Miss Betty Gray, Miss Marietta Daugherty and Mrs. Wilber McKibben. The committee has secured Miss Helen Kyle as the main speaker on the program.

The occasion will mark the tenth anniversary of the organization of the class. Members from Ellwood City, Beaver Falls, Pittsburgh and Youngstown, O., are expected to be here for the day.

Every year the home-coming is followed by their annual banquet and this is to be held on April 16, which will be open to all those present on the home-coming Sabbath.

Wide Variety Of Questions Asked

An idea of the wide variety of reference questions asked at the south side library—and answered—can be obtained from the following list jotted down at random the other day: (Mrs. Gladys Johnston, branch librarian, and Mrs. Edith Allen were in charge and led the questioners to the answers.)

Charlemagne, Greeks, Greek kings, "The Wiggin," "The Round Table," Book of the Nights, Spartans, Doric, Ionic, Corinthians, Pilgrims, contribution of the Greek, Norseman, Feudalism, Phoenicians, Rinehart, Rice, Bacheller, Craik, Abbott and Wharton.

Invite Council To Water Meet

Alfred W. Chilton, commissioner of the Chamber of Commerce, a first vice president of the National Rivers and Harbors Congress has invited city officials to attend the pre-convention of the congress at Washington, April 28, as the proposed Beaver-Mahoning canal will be discussed.

COAL TONNAGE FALLS, MINE TROUBLE BLAMED

Strike activities in the Pittsburgh district coal mining belt and in the West Virginia fields noticeably affected tonnage of coal trains operating through the New Castle district, during the past week, it was learned in railroad circles today.

"There has been a gradual fall-off in the mounting tonnage since the last two days of March," reported one road office.

Norma Shearer Is Declared As Best Dressed On Screen

Norma Shearer Supplants Late Lillian Tashman, As Best Dressed In Hollywood

(International News Service)

HOLLYWOOD, April 10.—Norma Shearer is the best dressed woman of the screen.

This was the consensus today of those who should know—the famous designers of Hollywood who create motion picture fashions.

During her life time Lilyan Tashman was popularly known as the best dressed woman in motion pictures. Authorities usually qualified this by naming her as one of the three best dressed women in pictures.

Miss Shearer was always mentioned as among the three "top notchers" and in a survey of four of the leading designers, three named her among their selections of "the best dressed" screen actress.

Kay Francis was named by two of the four. None of the experts cared to narrow down to one actress.

In addition to Miss Shearer and Miss Francis, the experts named as among the best dressed women in Hollywood, the following:

Marion Daveis, Carole Lombard, Claudette Colbert, Ann Harding, Dolores Del Rio, Katharine Hepburn, Irene Dunne and Dorothy Lee.

AROUND CITY HALL

Police chronology for 24 hours ending 3:30 p. m. April 9: eight arrests on charges as follows: keepers of disorderly house 2, visitors therein 6.

Chicken feed: It is quite apparent that the boys and girls who like moonshine are getting it cheap, the current price being 50 cents a quart, so when police raided a place recently the proprietress could not gain her freedom unless she put up a $50 cash bond. She gave the police sergeant 200 quarters. By the time he got through counting them he could have qualified for a teller's post.

Apparently police are no respector of "Who's Who". During the past few days they have raided several places and lo, among those caught in the room eyeing the galloping dominoes were two gentlemen who have quite a vote getting influence. However, they were not charged extra for their vote getting influence. They committed no serious crime and took the blow without wincing, showing they can take it—when they have to.

Slick Not so Slick: Several days ago police descended upon a room where they said crap shooting was in progress. They seized five dimes. The proprietor declared "We weren't gambling when the police came in." Mayor Mayne gazed at one visitor and said: "Now the truth!" The visitor smiled and remarked: "Well, mayor, the truth is this, Slick was too late getting his money up from the table." The mayor freed the visitors, with the proviso—"Double fine next time.' The proprietor paid a fine.

Woodman, Woodman, Spare That Tree: This role was enacted several days ago when a tree was alleged to be a hazard and taken down following orders by Councilman Joe Alexander. A woman who resided in the section is said to have objected to the tree being cut down. However, the tree was cut off even with the sidewalk. Council ratified his action.

In the Consolidated Act of Third Class cities, it says that a copy of all bills and all amendments thereto relating to the location of any public building must be furnished to the planning commission, according to the City Planning commission. The intent of the act, the planners report, is to have their recommendations carry weight.

No more city licenses will be granted to persons who wish to use Washington street as a salesroom, according to Chief Haven. A salesman obtained a license recently. The police kept the salesmen moving every half hour. Things will be different in the future. No license will be issued and this will save lots of trouble.

Now is the time of year when persons who like civic beauty should frown on anyone who tosses rubbish rather than in the place it belongs. ....Council will view three properties soon to decide whether or not they are nuisances....Some properties haven't been reported to council as nuisances but council probably knows some that are. And as they say in the movies: "Camera! Action!"

DANDRUFF
A Sure Way to End It

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it. Then, you destroy it entirely. To do this, just get some plain, ordinary liquid arvon from any drug store (it won't cost you more than thirty-five cents 35c), apply it at night when retiring, using enough to moisten the scalp and rubbing it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

LOOK OUT FOR THESE SYMPTOMS OF CONSTIPATION

Get Relief with Kellogg's ALL-BRAN

Headaches, loss of appetite and energy, sallow complexions, and sleeplessness are often warning signs of common constipation. Unless checked, constipation may impair health.

Today, you can usually get rid of common constipation by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid regularity. ALL-BRAN is also a good source of blood-building iron.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass. Gently, it clears the intestines of wastes. How much better than taking patent medicines.

Two tablespoonfuls daily will overcome most types of constipation. Chronic cases, with every meal. If seriously ill, see your doctor. ALL-BRAN is not a "cure-all."

Enjoy ALL-BRAN as a cereal, or use in cooking. Appetizing recipes on the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

Public Ledger To Be Absorbed By Inquirer

(International News Service)

PHILADELPHIA, April 10.—A landmark in American journalism today approached its demise with the announcement that on Monday, April 16, the Philadelphia Morning Public Ledger and the Sunday Public Ledger will be discontinued.

The Morning Public Ledger and the Sunday Public Ledger, it was announced last night in a statement issued by the publishers, will be combined with the Philadelphia Morning Inquirer and the Sunday Inquirer. John C. Martin is the president and publisher of both the Ledger and the Inquirer.

The Evening Public Ledger, established in 1914, will continue publication.

ONE MAN SUFFERS SLIGHT INJURIES

(International News Service)

CHESTER, Pa., April 10.—An explosion that shook the entire neighborhood early today destroyed a 55,000 gallon oil tank on the grounds of the Pure Oil company at Marcus Hook, near here. One man, Paul Biiron, was slightly injured and was brought to the Chester hospital for treatment.

In the "Good Old Days"—This is the date of the first recorded use, in 787 A. D., of an organ in a church. It was installed by King Pepin of France. Not long before the organ had been evolved from the bag pipe. The injection of such instruments into services was bitterly opposed by churchmen of that and succeeding centuries as being too pagan!

LOOK OUT FOR THESE SYMPTOMS OF CONSTIPATION

Get Relief with Kellogg's ALL-BRAN

Headaches, loss of appetite and energy, sallow complexions, and sleeplessness are often warning signs of common constipation. Unless checked, constipation may impair health.

Today, you can usually get rid of common constipation by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid regularity. ALL-BRAN is also a good source of blood-building iron.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass. Gently, it clears the intestines of wastes. How much better than taking patent medicines.

Two tablespoonfuls daily will overcome most types of constipation. Chronic cases, with every meal. If seriously ill, see your doctor. ALL-BRAN is not a "cure-all."

Enjoy ALL-BRAN as a cereal, or use in cooking. Appetizing recipes on the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

U. S. Asks Bank Aid In Bond Transfers

Subscriptions To Close Thursday Night Government Announces

WASHINGTON, April 10.—Services of 13,800 banks were enlisted by Secretary Morgenthau today in the treasury drive to exchange a billion in new securities for called fourth Liberty Loan bonds.

Morgenthau announced that subscriptions would close Thursday night and that so far $625,000,000 in exchange offerings had been received for the new issue of 10-12-year 3¼ per cent bonds.

Morgenthau emphasized the difficulty of reaching many small bondholders. He said that in the called group there were 340,000 bonds of $50 denomination and 400,000 of $100 each.

"Every holder of a fourth Liberty bond should examine it and if the serial number ends in a 9, 0 or 1, realize that his bond is in the called group and may be exchanged for the new issue," he said.

Prophetic League Is Sermon Subject

Dr. Oliver Buswell Gives Biblical Exposition Of "The League Of Nations"

To an audience that was more than twice as large as that of the previous Monday night at the First Baptist church Dr. J. Oliver Buswell spoke last night on "The League of Nations in Prophecy."

He gave a running exposition of a large portion of the apocalyptic literature of the Bible. He gave as his profound conviction the statement that the nations of the world are destined to constitute a great world empire and that this empire, being godless in spirit, will not long endure but will be succeeded by the Kingdom of Christ.

Tonight Dr. Boswell will speak on "Christian Americanism." The speaker went through the worst of the fighting in the World War and has been decorated for bravery. He says he prays for peace but that he is not a pacifist.

Wednesday night the pastor has called an executive session of the church at the close of the evangelistic service.

Get the Habit of Drinking Hot Water Before Breakfast
Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

U. S. Minister To Ireland Dies At DeValera Dinner

William McDowell Dies Of Heart Attack In Dublin As He Starts To Make Speech

(International News Service)

DUBLIN, April 10—Diplomatic Dublin was saddened today by one of the most tragic incidents in its history, the sudden collapse and death of William Wallace McDowell, American minister to the Irish free state, at a banquet given in his honor by Eamonn De Valera president of the free state executive council.

McDowell, who assumed his post here only two weeks ago, was said never to have fully recovered from the shock of his wife's death in Chicago last November following an operation.

Grieved For Wife

His death was the second and final blow of a cruel fate which had stalked his diplomatic appointment from the first. After a long and successful career in Montana mining, farming and politics, McDowell accepted his appointment largely in accordance with his wife's wishes.

Mrs. McDowell did not live however to go abroad with her husband and this fact weighed heavily upon the envoy.

De Valera, presiding at last night's banquet, was delivering an address of welcome when McDowell became ill. When De Valera finished, the minister asked if he ought to reply. De Valera said he need not if he did not feel well enough.

McDowell chose to speak, however ever, and had barely started when he collapsed. Dr. Ryan, Irish minister of agriculture and Dr. Von Dehn, the German ambassador both physicians, rushed to his side but found him dead.

New Castle Stamp Club Will Seek Cachet For Opening Of New Building

C. E. Spencer made the chief address at a well attended meeting of the New Castle Stamp Club Monday night in the Y. M. C. A. He discussed precancels which may perhaps be described as the present fad in stamp collecting. Beginning in 1916 with the so-called Bureau Experimentals he brought the subject down to date. Another interesting feature of the meeting was the exhibition of some rare United States offices in China, and Phillipine Islands. United States Occupation stamps belonging to Paul Olliphant of Warren, Ohio. Carl Harrison, secretary of the Warren Stamp club was also a visitor. Stamps were also shown from Manchukuo, the new Asiatic country not yet officially recognized by the U. S.

The opening of the New Castle post office being an event of the not very distant future a committee consisting of C. E. Spencer, Glen Anderson and Ralph Davis was appointed to confer with A. W. Permits To Burn Rubbish Available At All Fire Houses

Residents Can Go To Nearest Fire Station To Get Permits, Chief States

Local residents who wish to secure permits to burn rubbish, need not go to Central station to secure their permits, but can go to the nearest fire station, Fire Chief H. Clare Stockman stated today.

A book of permit blanks has been placed in each fire station in the city, and the captain or fireman in charge of the station is authorized to issue a permit.

It is necessary to secure a permit to burn rubbish under a city ordinance, failure to secure one being punishable by fine.

Brotherhood Meet St. John's Church

This evening at 6:30 the Men's Brotherhood of the St. John's Lutheran church will have a supper in the church dining room, at which time they will have the men of St. Paul's and Bethany Lutheran churches join with them.

There will be special music by the Book-Leyde quartet and Rev. J. J. Richard Booth, pastor of the Christ Lutheran church Beaver Falls will be the speaker.

Concluding dinner there will be the regular monthly meeting of the church council.

"I get better than 19 miles to the gallon!"

"THEY built astonishing economy into that brilliant engine that powers my new 1934 Dictator," says Studebaker owner George E. Hickman.

"I give a car punishment. I take long trips and drive fast. And when I tell you that the 5,000 miles I covered in my new Dictator the first month didn't mean even five minutes 'time out' for an adjustment, you'll realize what a truly superb automobile this new Studebaker is.

"I can't imagine how anyone with any motoring experience could choose a lower priced car, knowing how much this Dictator gives for so little.

"It has the style a 1934 car should have—attractive, not freakish, streamlining. And it handles so easily under all conditions, it's the answer to a driver's prayer."

You too will be thrilled by the performance and value of the new Dictator. Whatever your plans or price ideas about a new car, make sure you take a Studebaker trial drive.

Prophetic League Is Sermon Subject

Dr. Oliver Buswell Gives Biblical Exposition Of "The League Of Nations"

To an audience that was more than twice as large as that of the previous Monday night at the First Baptist church Dr. J. Oliver Buswell spoke last night on "The League of Nations in Prophecy."

He gave a running exposition of a large portion of the apocalyptic literature of the Bible. He gave as his profound conviction the statement that the nations of the world are destined to constitute a great world empire and that this empire, being godless in spirit, will not long endure but will be succeeded by the Kingdom of Christ.

Tonight Dr. Boswell will speak on "Christian Americanism." The speaker went through the worst of the fighting in the World War and has been decorated for bravery. He says he prays for peace but that he is not a pacifist.

Wednesday night the pastor has called an executive session of the church at the close of the evangelistic service.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

U. S. Minister To Ireland Dies At DeValera Dinner

William McDowell Dies Of Heart Attack In Dublin As He Starts To Make Speech

(International News Service)

DUBLIN, April 10—Diplomatic Dublin was saddened today by one of the most tragic incidents in its history, the sudden collapse and death of William Wallace McDowell, American minister to the Irish free state, at a banquet given in his honor by Eamonn De Valera president of the free state executive council.

McDowell, who assumed his post here only two weeks ago, was said never to have fully recovered from the shock of his wife's death in Chicago last November following an operation.

Grieved For Wife

His death was the second and final blow of a cruel fate which had stalked his diplomatic appointment from the first. After a long and successful career in Montana mining, farming and politics, McDowell accepted his appointment largely in accordance with his wife's wishes.

Mrs. McDowell did not live however to go abroad with her husband and this fact weighed heavily upon the envoy.

De Valera, presiding at last night's banquet, was delivering an address of welcome when McDowell became ill. When De Valera finished, the minister asked if he ought to reply. De Valera said he need not if he did not feel well enough.

McDowell chose to speak, however ever, and had barely started when he collapsed. Dr. Ryan, Irish minister of agriculture and Dr. Von Dehn, the German ambassador both physicians, rushed to his side but found him dead.

Special Cachet To Be Sought For Post Office Here

New Castle Stamp Club Will Seek Cachet For Opening Of New Building

C. E. Spencer made the chief address at a well attended meeting of the New Castle Stamp Club Monday night in the Y. M. C. A. He discussed precancels which may perhaps be described as the present fad in stamp collecting. Beginning in 1916 with the so-called Bureau Experimentals he brought the subject down to date. Another interesting feature of the meeting was the exhibition of some rare United States offices in China, and Phillipine Islands. United States Occupation stamps belonging to Paul Oliphant of Warren, Ohio. Carl Harrison, secretary of the Warren Stamp club was also a visitor. Stamps were also shown from Manchukuo, the new Asiatic country not yet officially recognized by the U. S.

The opening of the New Castle post office being an event of the not very distant future a committee consisting of C. E. Spencer, Glen Anderson and Ralph Davis was appointed to confer with A. W. Chilton of the New Castle Chamber of Commerce with regard to a suitable cachet for the first day celebration. A map or a picture will be either rubber stamped or printed on the envelopes which will of course advertise New Castle all over the world.

Attractive membership cards were received which will be signed by the secretary and treasurer and given out at the next meeting. E. B. Hawkins and G. E. Montgomery were taken into the club as new members. The next meeting of the stamp club will be held in the Y. M. C. A. on the evening of Monday, April 23.

Prophetic League Is Sermon Subject

Dr. Oliver Buswell Gives Biblical Exposition Of "The League Of Nations"

To an audience that was more than twice as large as that of the previous Monday night at the First Baptist church Dr. J. Oliver Buswell spoke last night on "The League of Nations in Prophecy."

He gave a running exposition of a large portion of the apocalyptic literature of the Bible. He gave as his profound conviction the statement that the nations of the world are destined to constitute a great world empire and that this empire, being godless in spirit, will not long endure but will be succeeded by the Kingdom of Christ.

Tonight Dr. Boswell will speak on "Christian Americanism." The speaker went through the worst of the fighting in the World War and has been decorated for bravery. He says he prays for peace but that he is not a pacifist.

Wednesday night the pastor has called an executive session of the church at the close of the evangelistic service.

To Isolate Jury In Court Trial

YOUNGSTOWN, O., April 10.—As the second trial of Fred A. Labelle, former director of the Mahoning Valley Sanitary district, on a charge of embezzlement, got under way this afternoon Judge N. Get the Habit of Drinking Hot Water Before Breakfast
Says we can't look or feel right with the system full of poisons.
Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.
There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.
People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.
Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

U. S. Minister To Ireland Dies At DeValera Dinner

William McDowell Dies Of Heart Attack In Dublin As He Starts To Make Speech

(International News Service)

DUBLIN, April 10—Diplomatic Dublin was saddened today by one of the most tragic incidents in its history, the sudden collapse and death of William Wallace McDowell, American minister to the Irish free state, at a banquet given in his honor by Eamonn De Valera president of the free state executive council.

McDowell, who assumed his post here only two weeks ago, was said never to have fully recovered from the shock of his wife's death in Chicago last November following an operation.

Grieved For Wife

His death was the second and final blow of a cruel fate which had stalked his diplomatic appointment from the first. After a long and successful career in Montana mining, farming and politics, McDowell accepted his appointment largely in accordance with his wife's wishes.

Mrs. McDowell did not live however to go abroad with her husband and this fact weighed heavily upon the envoy.

De Valera, presiding at last night's banquet, was delivering an address of welcome when McDowell became ill. When De Valera finished, the minister asked if he ought to reply. De Valera said he need not if he did not feel well enough.

McDowell chose to speak, however ever, and had barely started when he collapsed. Dr. Ryan, Irish minister of agriculture and Dr. Von Dehn, the German ambassador both physicians, rushed to his side but found him dead.

Special Cachet To Be Sought For Post Office Here

New Castle Stamp Club Will Seek Cachet For Opening Of New Building

C. E. Spencer made the chief address at a well attended meeting of the New Castle Stamp Club Monday night in the Y. M. C. A. He discussed precancels which may perhaps be described as the present fad in stamp collecting. Beginning in 1916 with the so-called Bureau Experimentals he brought the subject down to date. Another interesting feature of the meeting was the exhibition of some rare United States offices in China, and Phillipine Islands, United States Occupation stamps belonging to Paul Olliphant of Warren, Ohio. Carl Harrison, secretary of the Warren Stamp club was also a visitor. Stamps were also shown from Manchukuo, the new Asiatic country not yet officially recognized by the U. S.

The opening of the New Castle post office being an event of the not very distant future a committee consisting of C. E. Spencer, Glen Anderson and Ralph Davis was appointed to confer with A. W. Chilton of the New Castle Chamber of Commerce with regard to a suitable cachet for the first day celebration. A map or a picture will be either rubber stamped or printed on the envelopes which will of course advertise New Castle all over the world.

Attractive membership cards were received which will be signed by the secretary and treasurer and given out at the next meeting. E. B. Hawkins and G. E. Montgomery were taken into the club as new members. The next meeting of the stamp club will be held in the Y. M. C. A. on the evening of Monday, April 23.

Permits To Burn Rubbish Available At All Fire Houses

Residents Can Go To Nearest Fire Station To Get Permits, Chief States

Local residents who wish to secure permits to burn rubbish, need not go to Central station to secure their permits, but can go to the nearest fire station, Fire Chief H. Clare Stockman stated today.

A book of permit blanks has been placed in each fire station in the city, and the captain or fireman in charge of the station is authorized to issue a permit.

It is necessary to secure a permit to burn rubbish under a city ordinance, failure to secure one being punishable by fine.

This evening at 6:30 the Men's Brotherhood of the St. John's Lutheran church will have a supper in the church dining room, at which time they will have the men of St. Paul's and Bethany Lutheran churches join with them.

There will be special music by the Book-Leyde quartet and Rev. J. J. Richard Booth, pastor of the Christ Lutheran church Beaver Falls will be the speaker.

Concluding dinner there will be the regular monthly meeting of the church council.

"I get better than 19 miles to the gallon!"

"THEY built astonishing economy into that brilliant engine that powers my new 1934 Dictator," says Studebaker owner George E. Hickman.

"I give a car punishment. I take long trips and drive fast. And when I tell you that the 5,000 miles I covered in my new Dictator the first month didn't mean even five minutes 'time out' for an adjustment, you'll realize what a truly superb automobile this new Studebaker is.

"I can't imagine how anyone with any motoring experience could choose a lower priced car, knowing how much this Dictator gives for so little.

"It has the style a 1934 car should have—attractive, not freakish, streamlining. And it handles so easily under all conditions, it's the answer to a driver's prayer."

You too will be thrilled by the performance and value of the new Dictator. Whatever your plans or price ideas about a new car, make sure you take a Studebaker trial drive.

Flashes From Our Night Schools

Many entertainment features are being planned in the E. E. R. night schools of the city, according to the calendar for the month.

Tom Crenney's public speaking class, which meets at 9 o'clock will present its feature debate of the season on Thursday evening, the subject being, "Should Bachelors Be Taxed?"

It is interesting to note in this connection that two-thirds of the European nations have taxes on bachelors and it is also of interest that Premior Mussolini of Italy has placed a premium on marriages.

The affirmative side of the question will be handled by Mr. Logan and Mrs. Einrich, while Mr. Bowman and Mr. Grimm will uphold the negative side. Mr. Bilger has been chosen as alternate.

On April 30, the class taught by Mr. Crenney will debate with Frank Leonard's class from Lincoln and Garfield. The subject has not been selected yet.

Friday, April 14, will bring the night school classes from Castlewood to the North Street auditorium. Mrs. Mary Gardner, teacher at Castlewood will bring a combined musical and dramatic program to the North Street building. A one-act play will be one of the features.

The title is "Getting Acquainted," and the cast consists of the following:

John Bender—Robert Lockhart
Phyllis Bliss—Marie White
Edith Bliss—Julia McDanel.

A piano recital will be rendered by the radio team of Margaret and Bob Long, while Miss Julia McDanel will present a reading. The entire night school body, with the Y. W. C. A. classes of Miss Frances Carlon will attend this program.

On Tuesday, Wednesday, Thursday and Friday, April 17 to 20, the mystery drama, "The Night Cry," will be presented by the students of Howard Wylie at North street.

This eerie three-act play has been in rehearsal for five weeks, and those interested in dramatic productions have a treat in store for them.

An on April 23, 24, 25, the Americanization group at Lincoln and Garfield taught by Gates Griffith, will present one of the best-known Italian light operas, "Fuoro del Convento," or "Outside the Convent Walls."

Served Overseas As Major In U. S. Field Artillery Service

HERE ON FRIDAY FOR PUBLIC MEETINGS

Senator David A. Reed, who comes to New Castle on Friday, April 13, is one of the pioneer ex-service men in the United States senate. He has been a member of the senate for a number of years and at the time he first entered the senate was almost the only ex-service man there.

D. A. REED

A lawyer by profession he entered the service in an officers' training camp and was assigned to the artillery. Overseas he served as a major of Field Artillery and was in several major engagements.

While there have been times that his actions did not meet the entire approval of the ex-service men, they know that he will take a position and a checkup of his early record in the senate fits in with his recent action on veteran legislation.

Being a senator from Pennsylvania means hard work and expense. In a recent magazine article, Ray Tucker, well known Washington writer makes the statement that Senator Reed is one senator who has had to go down into his own pocket for money to pay additional clerical help in his office to handle the load of work.

Senator Reed comes to New Castle from Mercer county on Friday of this week and a tour of the county has been arranged, ending with a reception and a dinner in the Castleton hotel.

Ticket reservations are still being made at the Castleton hotel for the dinner which is open to the public. The price of the tickets is one dollar per person and the dinner starts at six thirty. Following it, Senator Reed will speak on the issues of the campaign.

Trees Topple Over Pennsy Wire Line; Service Disrupted

Service on the Pennsylvania railroad's trunk communications line was disrupted at 2 a. m. today after heavy trees, scorched by a brush fire which raged around them, crashed over the wire line in the Moravia yard vicinity.

Emergency crews of the E. & A. division's telegraph and signal department were dispatched to the scene and repaired tangled wire mass as quickly as possible. The heavy power line which operates the road's signal system was not affected.

The fire, it was believed, originated from a spark of a passing engine. A large section of trees was burned.

Senator Reed In World War

Served Overseas As Major In U. S. Field Artillery Service

HERE ON FRIDAY FOR PUBLIC MEETINGS

Senator David A. Reed, who comes to New Castle on Friday, April 13, is one of the pioneer ex-service men in the United States senate. He has been a member of the senate for a number of years and at the time he first entered the senate was almost the only ex-service man there.

D A REED

A lawyer by profession he entered the service in an officers' training camp and was assigned to the artillery. Overseas he served as a major of Field Artillery and was in several major engagements.

While there have been times that his actions did not meet the entire approval of the ex-service men, they know that he will take a position and a checkup of his early record in the senate fits in with his recent action on veteran legislation.

Being a senator from Pennsylvania means hard work and expense. In a recent magazine article, Ray Tucker, well known Washington writer makes the statement that Senator Reed is one senator who has had to go down into his own pocket for money to pay additional clerical help in his office to handle the load of work.

Senator Reed comes to New Castle from Mercer county on Friday of this week and a tour of the county has been arranged, ending with a reception and a dinner in the Castleton hotel.

Ticket reservations are still being made at the Castleton hotel for the dinner which is open to the public. The price of the tickets is one dollar per person and the dinner starts at six thirty. Following it, Senator Reed will speak on the issues of the campaign.

Trees Topple Over Pennsy Wire Line; Service Disrupted

Service on the Pennsylvania railroad's trunk communications line was disrupted at 2 a. m. today after heavy trees, scorched by a brush fire which raged around them, crashed over the wire line in the Moravia yard vicinity.

Emergency crews of the E. & A. division's telegraph and signal department were dispatched to the scene and repaired tangled wire mass as quickly as possible. The heavy power line which operates the road's signal system was not affected.

The fire, it was believed, originated from a spark of a passing engine. A large section of trees was burned.

The pianist was Miss Ann Mae Jones The concert was dismissed by Deacon Benjamin Jones.

The mid-week prayer meeting of the Emmanuel Baptist church will be held this week on Thursday evening instead of this evening because of the young people's meeting, which is scheduled for tonight.

Rev. William Holmes, of Cleveland, Ohio, has returned home after attending the funeral of his old friend, John Davies, of Park avenue.

I am very pleased to say that the following people have recovered from recent illnesses and were able to attend the Emmanual Baptist church service Sunday evening: Mrs. Mary Edmunds, South Mercer St.; William Phillips, East Reynolds St.; Mrs. Manns, of Court St.; and Mrs. William P. Vogan, of North Mercer street.

May End Probe Of Charges By Dr. Wm. A. Wirt

(Copyright, 1934, By International News Service)

WASHINGTON, April 10.—Summary ending of the investigation into charges of Dr. William A. Wirt, Gary, Ind., educator, was considered in a conference of House Democratic leaders immediately after the Wirt hearing closed today.

A final decision was to be made late this afternoon at a special meeting of the investigating committee.

Democratic members asserted that Dr. Wirt had failed to prove his charges against "brain trusters" and the existence of a plan to overthrow the present social order.

Republican members of the committee decided to make a fight for continuance of the inquiry and the calling of other witnesses.

Rep. Lehlbach (R) of New Jersey urged that secretary of agriculture Wallace, assistant secretary Tugwell, Frederic C. Howe, head of the consumers advisory board, and Brig Gen. W. I. Westervelt, former assistant of the AAA, be called.

Russian Language Paper In Paris Says Dictator's Wife Shot Self

DEATH YEAR AGO WAS MYSTERIOUS

(International News Service)

PARIS, April 10.—The sensational assertion that Mme. Allilouieva Stalin, late wife of the Soviet dictator, committed suicide following a public quarrel with her husband was printed in the Russian language newspaper "Poslednia Novesti" today.

"Comrade Allilouieva,"—as she was known to the Soviets, died a year ago under mysterious circumstances. While an official silence was maintained concerning all details of her death, rumors immediately spread abroad that she had committed suicide or had taken poison intended for Stalin himself.

"Poslednia Novesti," however, entertains no doubts as to her sudden death, printing a detailed account of what allegedly happened. Here is the story.

Quarreled At Party.

Climaxing a reception given by War Minister Voroshilov in Moscow, Allilquieva quarreled with Stalin, attacking his treatment of Soviet peasants before the assembled guests.

Stalin bluntly commanded her to be silent. A moment later Allilouieva left the party.

Instead of returning to their country villa, where the Stalins had been staying, Allilouieva went to her Kremlin apartment, a shot was heard two hours later.

Guards rushed to the door, but found it locked. Premier Michael Kalinin; Voroshilov, and L. M. Kaganovitch, secretary of the all-Union Trades Council, were summoned, and they forced the door.

Was Found Dead.

They found Allilouieva shot dead, and a suicide letter lying on the table.

Stalin was notified at the villa, where he had gone, at 6 o'clock in the morning. Arriving at the Kremlin, he went into the room and locked himself in alone with the body of his wife for several hours. Stalin never revealed the contents of the letter, which was addressed to him.

Stalin since has remarried, taking for his wife the sister of Kaganovitch, the newspaper asserted.

Pinchot Opens His Campaign

Stresses Support Of President Roosevelt In His Initial Address

(International News Service)

HARRISBURG, April 10.—Gov. Gifford Pinchot's opening broadside in his campaign for the Republican senatorial nomination echoed over Pennsylvania's political parapets today.

Coupling a review of the achievements of his two administrations Senator David A. Reed as the "servant" of the Mellons and the moneyed interests, the governor, in a radio address last night called upon the voters to choose between them.

Identifying himself as a Progressive Republican, the governor laid stress on his support of President Franklin D. Roosevelt and the "New Deal," both of which have undergone severe criticism at the hands of Reed, he declared:

"I stand beside President Franklin Roosevelt in his fight for the forgotten man. Long before he was in public life I was fighting for the principles of the new deal."

Truck Crashes On Hill; Local Driver Escapes Injury

BUTLER, Pa., Apr. 10.—Approximately $1,600 damage resulted from a crash of a truck tractor and trailer on the Cranmer hill, eight miles west of Butler on the Butler-New Castle road early Monday. No one was injured.

The accident occurred when a brake on the trailer locked, causing the truck to jack-knife. Millard Martin of Volant R. D. 3, driver of the truck, stated.

Radios, radio parts and other merchandise were scattered over the highway and one way traffic was maintained until after 8 o'clock this morning.

With Martin in the truck was John Crooks, 605 Oak street, New Castle, relief driver. He was asleep at the time of the accident.

Pinchot Designates Spring Arbor Day

Bird Day Also Designated By Governor Pinchot, Different Dates For Sections

(International News Service)

HARRISBURG, Apr. 10.— Gov. Gifford Pinchot today had designated April 13 as Spring Arbor and Bird Day in Southern Pennsylvania and April 27 in Northern parts of the state.

The proclamation read in part:

"In the past half century hundreds of thousands of Pennsylvania youngsters have come to know more and think more of the forests and of all wild life because of Arbor and Bird days.

"What these days have meant to the state of Pennsylvania cannot ever be estimated. Even in dollars and cents the benefit of a developed interest in the conservation of our great natural resources must be tremendous. In appreciation and love for the outdoors the good these days have done is almost beyond imagination."

What saps we are. Smart people caused our present troubles and yet we keep educating more.

May Speed Up Adjournment

Number Of Controversial Measures May Be Passed Up By Congress

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, April 10—Congress will adjourn without action looking to readjustment of European debts to this country and the administration's legislative program may be curtailed to hasten adjournment, Democratic leaders indicated.

With primary elections beginning today and a fall election to be faced, the leaders want to minimize the controversal measures before Congress in the next few weeks.

Chairman Doughton (D) of North Carolina, of the house ways and means committee, expects no action on the debt question and also favors postponement of unemployment insurance legislation.

"I do not expect anything to be done on debts," said Doughton. "I have not talked to the administration on the question, but that would be a very controversial matter to bring up at this time.

The leaders are prepared to urge President Roosevelt upon his return from Florida to permit curtailment of the legislative program.

Among the measures which may be shelved under a program of adjournment are:

Commodity exchange regulation, communications commission, unemployment insurance and the Wagner-Connery labor board bill, all administration measures, as well as some of attorney-general Cummings' anti-crime bills.

Democratic chieftains, who are prepared to push a stock exchange regulation bill through, feel that they will have accomplished much if they complete this measure, air mail legislation, and other frills already acted upon by one house.

The senate still has the highly controversial reciprocal tariff bill to pass and air mail legislation is yet to be considered in both branches. The sugar allocation bill, which passed the house, is pending in the senate.

Delay is expected in completion of the tax bill because of he "soak-the-rich" amendments adopted by the senate. House chieftains are preparing to lay the senate amendments before the administration before deciding upon a course of action.

City To Pay For Drum, Bugle Corps

Council on Monday authorized the payment of $200 to the American Legion, Perry Gaston post, for drum and bugle corps, who participated in the Armistice day celebration. The city, under an act of assembly, can pay for such music. It was agreed at that time the city would pay the bill should the local post not be able to. The finances of the local post are such that the city has been asked to pay and it will.

Correct this sentence: "Yes, I have read Anthony Adverse," said she, "and I didn't skip."

On Court House Hill

In an opinion handed down at court today Judge R. L. Hildebrand refused a new trial in the case of the Baldwin Piano Company against Julius Sypher. Motion for judgment, notwithstanding the verdict, was also refused. The case grew out of a writ of replevin, issued for a piano sold Sypher by the Snyder Piano Company on a bailment contract. The contract was afterwards assigned to the Baldwin Company. The jury trying the case had fixed the value of the piano at $200, and returned a verdict against the plaintiff for $11.

Records of the register and recorder show that 42 instruments of all kinds were recorded last week. Of this number 25 were deeds, the number of deeds being 11 more than were recorded during the previous week. There were 10 mortgages recorded, compared to 13 the previous week. One half of the mortgages, amounting to a total of $14,351.93 were to the Home Owners Loan Corporation. Three mortgages, totaling $2500 were given to building and loan associations, one of $1800 to a private individual and one of $1500 to a trust company, as trustee. The mortgages of all kinds totaled $20,151.93, compared with a total of $26,139.19, the previous week.

Beginning the fifteenth of this month the Federal Land Bank of Baltimore issues bonds in place of giving cash for mortgages taken over, according to Attorney W. W. Stevenson, who looks after the loans granted here. As these bonds are guaranteed by the government, both as to principal and interest, they are practically as good as the cash as they are selling at around par. Heretofore the Federal Land Bank has been financing with cash.

Prothonotary R. M. Campbell is preparing papers in cases which have been appealed to the superior court, which meets on April 16. There are six cases on the list as follows: Rotunno against the Lawrence County Poor Board; General Motors Acceptance Corporation against Gilfillan; McCormick against Kelley; Scanlon against the City of New Castle; First National Bank of East Palestine, O., against McRoberts and Hamill against Foster.

County Treasurer William O. Pitts is expecting an easier time this year when it comes to the granting of beverage licenses. This is due to the fact that since the 3.2 beer act was passed repeal of the prohibition laws has taken place. Now the liquor control board issues licenses to sell what is commonly called hard liquor, such as whiskey and gin. The holder of a license from the liquor control board can also sell beer and all other beverages. Many of those who held only beer licenses last year have since secured licenses to sell the hard liquors, so that the only persons whom the county treasurer will be called upon to license will be those who wish to dispense beer. The applications must be filed one week before the first of June, when the licenses issued last year expire.

Application for a new trial by the defendant has been filed in the case of Frank R. Holliday against Jessie McNeish, in which a verdict in favor of the plaintiff was rendered at court last week. The case grew out of Holliday's attempt to probate a will left by his father, the late Hiram Holliday. It was claimed by the defendant that there was another will and also that undue influence had been used in getting Hiram Holliday to make the will which was offered for probate. The case will go on the argument list which an opinion will be handed down.

Sheriff Edward Pritchard now has only eighteen prisoners in the county jail, the smallest number since he assumed office.

Dr. J. O. Buswell Of Wheaton College Addresses New Castle Ministers

Dr. J. Oliver Buswell of Wheaton college was the speaker on Monday morning for the Ministerial association. He took as his subject, "The Christian Answer to the Philosophical Problem of Evil." The speaker distinguished between the practical problem of evil which is distinctly the minister's problem and the philosophical problem which concerns the teacher.

There was an unusually large attendance of the ministers and an interesting discussion followed the address.

A motion was passed commending the industrial organizations and groups which had decided to maintain Eastern Standard Time in their schedules for the summer as this will be advantageous to the churches.

HARRISBURG, April 10.—Gov. Gifford Pinchot's opening broadside in his campaign for the Republican senatorial nomination echoed over Pennsylvania's political parapets today.

Coupling a review of the achievements of his two administrations Senator David A. Reed as the "servant" of the Mellons and the money-eyed interests, the governor, in a radio address last night called upon the voters to choose between them.

Identifying himself as a Progressive Republican, the governor laid stress on his support of President Franklin D. Roosevelt and the "New Deal," both of which have undergone severe criticism at the hands of Reed, he declared:

"I stand beside President Franklin Roosevelt in his fight for the forgotten man. Long before he was in public life I was fighting for the principles of the new deal."

Truck Crashes On Hill; Local Driver Escapes Injury

BUTLER, Pa., Apr. 10.—Approximately $1,600 damage resulted from a crash of a truck tractor and trailer on the Cranmer hill, eight miles west of Butler on the Butler-New Castle road early Monday. No one was injured.

The accident occurred when a brake on the trailer locked, causing the truck to jack-knife, Millard Martin of Volant R. D. 3, driver of the truck, stated.

Radios, radio parts and other merchandise were scattered over the highway and one way traffic was maintained until after 8 o'clock this morning.

With Martin in the truck was John Crooks, 605 Oak street, New Castle, relief driver. He was asleep at the time of the accident.

Pinchot Designates Spring Arbor Day

Bird Day Also Designated By Governor Pinchot, Different Dates For Sections

(International News Service)

HARRISBURG, Apr. 10.— Gov. Gifford Pinchot today had designated April 13 as Spring Arbor and Bird Day in Southern Pennsylvania and April 27 in Northern parts of the state.

The proclamation read in part:

"In the past half century hundreds of thousands of Pennsylvania youngsters have come to know more and think more of the forests and of all wild life because of Arbor and Bird days.

"What these days have meant to the state of Pennsylvania cannot ever be estimated. Even in dollars and cents the benefit of a developed interest in the conservation of our great natural resources must be tremendous. In appreciation and love for the outdoors the good these days have done is almost beyond imagination."

What saps we are. Smart people caused our present troubles and yet we keep educating more.

May Speed Up Adjournment

Number Of Controversial Measures May Be Passed Up By Congress

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, April 10—Congress will adjourn without action looking to readjustment of European debts to this country and the administration's legislative program may be curtailed to hasten adjournment, Democratic leaders indicated.

With primary elections beginning today and a fall election to be faced, the leaders want to minimize the controversal measures before Congress in the next few weeks.

Chairman Doughton (D) of North Carolina, of the house ways and means committee, expects no action on the debt question and also favors postponement of unemployment insurance legislation.

"I do not expect anything to be done on debts," said Doughton. "I have not talked to the administration on the question, but that would be a very controversial matter to bring up at this time.

The leaders are prepared to urge President Roosevelt upon his return from Florida to permit curtailment of the legislative program.

Among the measures which may be shelved under a program of adjournment are:

Commodity exchange regulation, communications commission, unemployment insurance and the Wagner-Connery labor board bill, all administration measures, as well as some of attorney-general Cummings' anti-crime bills.

Democratic chieftains, who are prepared to push a stock exchange regulation bill through, feel that they will have accomplished much if they complete this measure, air mail legislation, and other frills already acted upon by one house.

The senate still has the highly controversial reciprocal tariff bill to pass and air mail legislation is yet to be considered in both branches. The sugar allocation bill, which passed the house, is pending in the senate.

Delay is expected in completion of the tax bill because of the "soak-the-rich" amendments adopted by the senate. House chieftains are preparing to lay the senate amendments before the administration before deciding upon a course of action.

City To Pay For Drum, Bugle Corps

Council on Monday authorized the payment of $300 to the American Legion, Perry Gaston post, for drum and bugle corps, who participated in the Armistice day celebration. The city, under an act of assembly, can pay for such music. It was agred at that time the city would pay the bill should the local post not be able to. The finances of the local post are such that the city has been asked to pay and it will.

Correct this sentence: "Yes, I have read Anthony Adverse," said she, "and I didn't skip."

On Court House Hill

In an opinion handed down at court today Judge R. L. Hildebrand refused a new trial in the case of the Baldwin Piano Company against Julius Sypher. Motion for judgment, notwithstanding the verdict, was also refused. The case grew out of a writ of replevin, issued for a piano sold Sypher by the Snyder Piano Company on a bailment contract. The contract was afterwards assigned to the Baldwin Company. The jury trying the case had fixed the value of the piano at $200, and returned a verdict against the plaintiff for $11.

Records of the register and recorder show that 42 instruments of all kinds were recorded last week. Of this number 25 were deeds, the number of deeds being 11 more than were recorded during the previous week. There were 10 mortgages recorded, compared to 13 the previous week. One half of the mortgages, amounting to a total of $14,351.93 were to the Home Owners Loan Corporation. Three mortgages, totaling $2500 were given to building and loan associations, one of $1800 to a private individual and one of $1500 to a trust company, as trustee. The mortgages of all kinds totaled $20,151.93; compared with a total of $26,139.19, the previous week.

Beginning the fifteenth of this month the Federal Land Bank of Baltimore issues bonds in place of giving cash for mortgages taken over, according to Attorney W. W. Stevenson, who looks after the loans granted here. As these bonds are guaranteed by the government, both as to principal and interest, they are practically as good as the cash as they are selling at around par. Heretofore the Federal Land Bank has been financing with cash.

Prothonotary R. M. Campbell is preparing papers in cases which have been appealed to the superior court, which meets on April 16. There are six cases on the list as follows: Rotunno against the Lawrence County Poor Board; General Motors Acceptance Corporation against Gilfillan; McCormick against Kelley; Scanlon against the City of New Castle; First National Bank of East Palestine, O., against McRoberts and Hamill against Foster.

County Treasurer William O. Pitts is expecting an easier time this year when it comes to the granting of beverage licenses. This is due to the fact that since the 3.2 beer act was passed repeal of the prohibition laws has taken place. Now the liquor control board issues licenses to sell what is commonly called hard liquor, such as whiskey and gin. The holder of a license from the liquor control board can also sell beer and all other beverages. Many of those who held only beer licenses last year, have since secured licenses to sell the hard liquors, so that the only persons whom the county treasurer will be called upon to license will be those who wish to dispense beer. The applications must be filed one week before the first of June, when the licenses issued last year expire.

Application for a new trial by the defendant has been filed in the case of Frank R. Holliday against Jessie McNeish, in which a verdict in favor of the plaintiff was rendered at court last week. The case grew out of Holliday's attempt to probate a will left by his father, the late Hiram Holliday. It was claimed by the defendant that there was another will and also that undue influence had been used in getting Hiram Holliday to make the will which was offered for probate. The case will go on the argument list which an opinion will be handed down.

Sheriff Edward Pritchard now has only eighteen prisoners in the county jail, the smallest number since he assumed office.

ASSERTS STALIN'S WIFE COMMITTED SUICIDE

Sensational Story Printed

Russian Language Paper In Paris Says Dictator's Wife Shot Self

DEATH YEAR AGO WAS MYSTERIOUS

(International News Service)

PARIS, April 10.—The sensational assertion that Mme. Allilouieva Stalin, late wife of the Soviet dictator, committed suicide following a public quarrel with her husband was printed in the Russian language newspaper "Poslednia Novesti" today.

"Comrade Allilouieva,"—as she was known to the Soviets, died a year ago under mysterious circumstances. While an official silence was maintained concerning all details of her death, rumors immediately spread abroad that she had committed suicide or had taken poison intended for Stalin himself.

"Poslednia Novesti," however, entertains no doubts as to her sudden death, printing a detailed account of what allegedly happened. Here is the story.

Quarreled At Party.

Climaxing a reception given by War Minister Voroshilov in Moscow, Allilquieva quarreled with Stalin, attacking his treatment of Soviet peasants before the assembled guests.

Stalin bluntly commanded her to be silent. A moment later Allilouieva left the party.

Instead of returning to their country villa, where the Stalins had been staying, Allilouieva went to her Kremlin apartment, a shot was heard two hours later.

Guards rushed to the door, but found it locked. Premier Michael Kalinin, Voroshilov, and L. M. Kaganovitch, secretary of the all-Union Trades Council, were summoned, and they forced the door.

Was Found Dead.

They found Allilouieva shot dead, and a suicide letter lying on the table.

Stalin was notified at the villa, where he had gone, at 6 o'clock in the morning. Arriving at the Kremlin, he went into the room and locked himself in alone with the body of his wife for several hours. Stalin never revealed the contents of the letter, which was addressed to him.

Stalin since has remarried, taking for his wife the sister of Kaganovitch, the newspaper asserted.

how will the NEW

Electric Rate -7-5-3-2 ..... effect your ELECTRIC SERVICE BILL

• • •

Here Is the New Schedule.

You may figure it for yourself easily—or call our Rate Department 1820.

Number of Rooms	NUMBER OF KILOWATT HOURS 7c BLOCK	5c BLOCK	3c BLOCK	2c BLOCK
6 or less	30	30	60	All
7	30	35	55	in
8	30	40	50	excess
9	30	45	45	of
10 or more	30	50	40	120

Let's figure Mr. A's Electric Service Bill. He lives in a 6 room home; has neither an Electric Refrigerator nor Electric Range; last month his bill was $7.41 representing 130 Kilowatt hours at 5.7c per Kilowatt hour. Now under the New Rate, using the above table, it would figure thus: 30 KWH at 7c—$2.10; 30 KWH at 5c—$1.50; 60 KWH at 3c—$1.80; all the rest at 2c in this case 10 KWH—20c; adding these sums for the four blocks we get a total bill of $5.60. The savings as compared with the old rate is $1.81.

The old rate of 5.7 cents per Kilowatt hour remains in effect for those who might not benefit by the new rate.

how will the NEW

Electric Rate -7-5-3-2 ..... effect your ELECTRIC SERVICE BILL

• • •

Here Is the New Schedule.

You may figure it for yourself easily—or call our Rate Department 1820.

Number of Rooms	NUMBER OF KILOWATT HOURS 7c BLOCK	5c BLOCK	3c BLOCK	2c BLOCK
6 or less	30	30	60	All
7	30	35	55	in
8	30	40	50	excess
9	30	45	45	of
10 or more	30	50	40	120

Let's figure Mr. A's Electric Service Bill. He lives in a 6 room home; has neither an Electric Refrigerator nor Electric Range; last month his bill was $7.41 representing 130 Kilowatt hours at 5.7c per Kilowatt hour. Now under the New Rate, using the above table, it would figure thus: 30 KWH at 7c—$2.10; 30 KWH at 5c—$1.50; 60 KWH at 3c—$1.80; all the rest at 2c in this case 10 KWH—20c; adding these sums for the four blocks we get a total bill of $5.60. The savings as compared with the old rate is $1.81.

The old rate of 5.7 cents per Kilowatt hour remains in effect for those who might not benefit by the new rate.

Rotary's 'Rural Day' Luncheon Held Monday; Dean Watts Is Heard

That farmers and city folk will "get together" more in the future than they have in the past with 'each displaying a greater interest in the other" was the prediction which the Rotary Club's "Rural Day" audience heard spoken when Dean R. L. Watts, head of Penn State's agricultural school, addressed them at The Castleton on Monday.

'Farm Incomes' Topic

With "Farm Incomes" for his subject, Dean Watts, a Lawrence county native, pointed out to the city-rural listenerers that an impressive trend today is drawing the farm man closer and closer to the city dweller and vice versa.

Once a year Rotary holds its "Rural Day" program with each Rotarian playing host to a farmer guest. Forty Lawrence County farmers sat around the festive board with the clubmen yesterday.

Chairman Thomas A. Gilkey of the club's rural-urban committee, a classmate of Dean Watts at State years ago, introduced his "school chum." Mr. Gilkey's committee directed the program arrangements.

Dean Watts, taking a most timely subject for discussion, separated his remarks into financial incomes, intellectual incomes and emotional or spiritual incomes. Of the three he spoke briefly emphasizing that "farmers don't make millions from their work but they do derive great benefits in intellectual and spiritual ways."

Says Farmer Can Succeed

Of the financial side he said that "with intelligent procedure, good business methods and hard work the farmer can succeed."

He called their attention, however to several points which he believes the farmers can well give heed to if they desire to realize a fair financiti income and they were these:

First, to find out what the local market wants and to strive to adjust the farm production to meet it.

Second, to see to it that every acre is utilized so that it makes its maximum contribution to society.

Third, to learn how to be better merchants.

Dean Watts, discussing the second point of acreage use, said that from his observations "diversified farmers" in Pennsylvania are generally more successful than "specialty farmers," or those who specialize.

Intellectual Gains Great

"A farmer's intellectual income is great, and especially does a farmer who has knowledge of what he's working with get a great deal out of it," said the speaker. As far as the emotional income is concerned, Dean Watts conveyed his point most effectively when he declared bluntly that "I can see more beauty in a wel cultivated cabbage field than I can in a bed of roses." He said that "a man who admires beauty in farming is one who usually succeeds."

At the outset of his address the agricultural school dean regretted the fact that "we seem to have no science of economics" that can determine the cure for our depression. He said the science of medicine and science of business appear to succeed although no science of economics has developed for us a cure-all for the hard times. He blamed the World War as "largely responsible for the times."

At the close of Dean Watt's address, N. E. Sampson, New Wilmington, president of the Lawrence County Agricultural Extension association, expressed the farmer's appreciation for Rotary's invitation to the dinner.

Rural Guests Present

Farmer-guests present were:

N. E. Sampson, H. A. Kyle, R. J. Drake, Mr. Bailey, K. K. McCreary, S. A. McCreary, Floyd Cotton, A. E. McCreary, H. L. McCurley, J. Audley Boak, D. F. Kyle, B. Wright, Mr. Byers, F. B. Bradley, Frank Fenis, Tom Lindsey, Clifford Walters, R. P. Peebles, Tom Cooper, Mr. Davis, F. Pomeroy Chapin, A. W. McCrumb, Joseph Burton, James Kelso, J. W. Fullerton, Charles B. Patton and Stewart Hunt.

Rotary guests were:

Ed Wadding, Kansas City: Fred Taylor, New Wilmington: O. A. Decker, Youngstown, Luman B. Page, Pittsburgh, and Fred Spang, Butler.

The Rev. C. S. Joshua, pastor of the Croton M. E. church and president of the city's ministerial association gave the invocation before dinner.

Leta Is Candidate For General Assembly

Attorney Announces Candidacy For Republican Nomination In First District

JOSEPH LETA, JR.

Attorney Leta, before entering the legal profession, attended Allegheny college in Meadville. He later entered the University of Michigan where he received his Bachelor of Arts degree in 1923 and his Bachelor of Laws degree in 1925. Mr. Leta was then admitted to practice before the Supreme and Superior Courts of Pennsylvania of which he is now a member. He is also a member of the District Court of the United States as well as of the Venango and Lawrence County Courts, and has his law offices in the Lawrence Savings and Trust Building. He is a resident of the Fourth Ward, is married, and has one child.

In announcing his candidacy Mr. Leta sets forth his views in the following statement:

"Taxation on homes has reached the prohibitive stage so that people prefer not to own their own homes. This is a bad state of affairs because ownership of his own home by the individual citizen makes for sound and stable government. It is essential that we fulfill our duties as an organized society, but it is equally essential that we help the home-owner.

I am satisfied that our tax-collecting system is faulty and that, by proper legislation, large sums of money can be saved the tax-payers. We have too many unnecessary duplications in office which can and must be eliminated for they increase taxes without increasing efficiency.

In my practice I have noticed instances where our law-makers have failed to protect our people. For instance, under existing laws a woman who loses her husband leaving her a home and no other estate is called upon to pay a special tax. In most cases this works a hardship and is unfair to the widow. I believe that such homes should be exempted from Inheritance Tax.

While most people are under the impression that 6% is the only legal rate of interest in Pennsylvania, many who have had occasion to borrow small sums of money have discovered that under Pennsylvania law certain companies are permitted to charge as high as 42% per year on loans not exceeding $300. Such a law is unfair to the man or woman that is in need of a small loan and in my judgment should be either totally abolished or radically modified.

Under our present democratic form of government it is essential that we make provision for an efficient school system. In this connection I believe that a state income tax law on large incomes would solve the problem of the School Teachers.

Legislation which is intelligent, fair and impartial should be enacted concerning all Public Utilities.

I favor a shorter working day and a wage that will permit the laboring man to make a comfortable living.

I belong to no political group and I have made no promises. If nominated and elected I will devote myself to the best interests of our community without making any distinction as to race, color or creed. I believe that my training as a lawyer will enable me to present properly my views in the law-making branch of our Commonwealth.

With the above statement I respectfully submit my name as a candidate for the nomination for Representative to the General Assembly from the City of New Castle, subject to the Republican Primary of May 15, and solicit the support of each and every voter."

CITY COUNCIL TO VIEW PROPERTIES

Members of council have set April 20 as the time to view three properties to ascertain if they are, as alleged, public nuisances. Two are in Florence avenue and another in Oak street.

"If my Foresight had been as good as my Hindsight, I'd be better off a Blamed Sight."

2 **IS IT PERMANENTLY SILENT?** *Electrolux is . . . it has nothing to make noise, or to wear and become noisy.*

3 **WHAT ABOUT REPAIRS?** *Electrolux has no moving parts to wear and need costly repairing.*

4 **WHO WILL SERVICE IT?** *Your own gas company stands behind Electrolux and services every one it sells.*

Frees you from costly repairs
Costs less to operate
Temperature regulator
Non-stop defrosting
Ample food space
Plenty of ice cubes

Operates on as little as 3¢ A DAY

Don't hesitate to ask all the questions you think of when you consider the purchase of an automatic refrigerator.

We have listed four pertinent questions above. And we believe that the New Air-Cooled Electrolux has the best answers to all of them.

It costs less to run, because it operates upon a simpler, more efficient principle. A tiny gas flame circulates a simple refrigerant. Ordinary air cools it.

It's permanently silent, because it has nothing to make noise with.

It frees you from costly repairs because it has no moving parts to wear.

But Electrolux does not stop there. It has all the modern conveniences that make an automatic refrigerator a real joy to own.

Here are some of them:

Rubber ice-cube grid. New gleaming-white Newtone finish. Non-stop defrosting. Trigger tray release. Temperature regulator that speeds the freezing of ice cubes—and makes it easy to prepare delicious salads and desserts.

Please come in. We are sure that you'll share our enthusiasm for the New Air-Cooled Electrolux . . . it's so far in advance of all other refrigerators.

It's a real pleasure to own an Electrolux. And it's a pleasure, too, to know that your own gas company stands back of Electrolux and gladly services every one it sells.

Plan Rebuilding Of Bridge Span At East Brady

(International News Service)

HARRISBURG, April 10—Bids for the first unit of a gradual reconstruction plan by which the state department of highways will eventually replace the bridge across the Allegheny river at East Brady with a new and modern span will be opened April 20, Secretary of Highways Samuel S. Lewis announced today.

The first bids will be for two modern steel trusses to replace the two sections of the bridge recently washed away when ice jammed the river.

Lewis said there was not sufficient money available to replace the bridge immediately with a new structure but that by using the portions left standing in the recent storms a new bridge would eventually be provided.

He said the two trusses for which bids have been asked will be of thoroughly modern construction. Later, the department will replace the other sections of the bridge.

Rotary's 'Rural Day' Luncheon Held Monday; Dean Watts Is Heard

That farmers and city folk will "get together" more in the future than they have in the past with 'each displaying a greater interest in the other" was the prediction which the Rotary Club's "Rural Day" audience heard spoken when Dean R. L. Watts, head of Penn State's agricultural school, addressed them at The Castleton on Monday.

'Farm Incomes' Topic

With "Farm Incomes" for his subject, Dean Watts, a Lawrence county native, pointed out to the city-rural listenerers that an impressive trend today is drawing the farm man closer and closer to the city dweller and vice versa.

Once a year Rotary holds its "Rural Day" program with each Rotarian playing host to a farmer guest. Forty Lawrence County farmers sat around the festive board with the clubmen yesterday.

Chairman Thomas A. Gilkey of the club's rural-urban committee, a classmate of Dean Watts at State years ago, introduced his "school chum." Mr. Gilkey's committee directed the program arrangements.

Dean Watts, taking a most timely subject for discussion, separated his remarks into financial incomes, intellectual incomes and emotional or spiritual incomes. Of the three he spoke briefly emphasizing that "farmers don't make millions from their work but they do derive great benefits in intellectual and spiritual ways."

Says Farmer Can Succeed

Of the financial side he said that "with intelligent procedure, good business methods and hard work the farmer can succeed."

He called their attention, however to several points which he believes the farmers can well give heed to if they desire to realize a fair financial income and they were these:

First, to find out what the local market wants and to strive to adjust the farm production to meet it.

Second, to see to it that every acre is utilized so that it makes its maximum contribution to society.

Third, to learn how to be better merchants.

Dean Watts, discussing the second point of acreage use, said that from his observations "diversified farmers" in Pennsylvania are generally more successful than "specialty farmers." or those who specialize.

Intellectual Gains Great

"A farmer's intellectual income is great, and especially does a farmer who has knowledge of what he's working with get a great deal out of it," said the speaker. As far as the emotional income is concerned, Dean Watts conveyed his point most effectively when he declared bluntly that "I can see more beauty in a wel cultivated cabbage field than I can in a bed of roses." He said that "a man who admires beauty in farming is one who usually succeeds."

At the outset of his address the agricultural school dean regretted the fact that "we seem to have no science of economics" that can determine the cure for our depression. He said the science of medicine and science of business appear to succeed although no science of economics has developed for us a cure-all for the hard times. He blamed the World War as "largely responsible for the times."

At the close of Dean Watt's address, N, E. Sampson, New Wilmington, president of the Lawrence County Agricultural Extension association, expressed the farmer's appreciation for Rotary's invitation to the dinner.

N. E. Sampson, H. A. Kyle, R. J. Drake, Mr. Bailey, K. K. McCreary, S. A. McCreary, Floyd Cotton, A. E. McCreary, H. L. McCurley, J. Audley Boak, D. F. Kyle, B. Wright, Mr. Byers, F. B. Leta Is Candidate For General Assembly

Attorney Announces Candidacy For Republican Nomination In First District

JOSEPH LETA, JR.

Attorney Leta, before entering the legal profession, attended Allegheny college in Meadville. He later entered the University of Michigan where he received his Bachelor of Arts degree in 1923 and his Bachelor of Laws degree in 1925. Mr. Leta was then admitted to practice before the Supreme and Superior Courts of Pennsylvania of which he is now a member. He is also a member of the District Court of the United States as well as of the Venango and Lawrence County Courts, and has his law offices in the Lawrence Savings and Trust Building. He is a resident of the Fourth Ward, is married, and has one child.

In announcing his candidacy Mr. Leta sets forth his views in the following statement:

"Taxation on homes has reached the prohibitive stage so that people prefer not to own their own homes. This is a bad state of affairs because ownership of his own home by the individual citizen makes for sound and stable government. It is essential that we fulfill our duties as an organized society, but it is equally essential that we help the home-owner.

I am satisfied that our tax-collecting system is faulty and that, by proper legislation, large sums of money can be saved the tax-payers. We have too many unnecessary duplications in office which can and must be eliminated for they increase taxes without increasing efficiency.

In my practice I have noticed instances where our law-makers have failed to protect our people. For instance, under existing laws a woman who loses her husband leaving her a home and no other estate is called upon to pay a special tax. In most cases this works a hardship and is unfair to the widow. I believe that such homes should be exempted from Inheritance Tax.

While most people are under the impression that 6% is the only legal rate of interest in Pennsylvania, many who have had occasion to borrow smal' sums of money have discovered that under Pennsylvania law certain companies are permitted to charge as high as 42% per year on loans not exceeding $300. Such a law is unfair to the man or woman that is in need of a small loan and in my judgment should be either totally abolished or radically modified.

Under our present democratic form of government it is essential that we make provision for an efficient school system. In this connection I believe that a state income tax law on large incomes would solve the problem of the School Teachers.

Legislation which is intelligent, fair and impartial should be enacted concerning all Public Utilities.

I favor a shorter working day and a wage that will permit the laboring man to make a comfortable living.

I belong to no political group and I have made no promises. If nominated and elected I will devote myself to the best interests of our community without making any distinction as to race, color or creed. I believe that my training as a lawyer will enable me to present properly my views in the law-making branch of our Commonwealth.

With the above statement I respectfully submit my name as a candidate for the nomination for Representative to the General Assembly from the City of New Castle, subject to the Republican Primary of May 15, and solicit the support of each and every voter."

1 **WHAT IS ITS OPERATING COST?** *Electrolux operates for less than any other refrigerator.*

2 **IS IT PERMANENTLY SILENT?** *Electrolux is . . . it has nothing to make noise, or to wear and become noisy.*

3 **WHAT ABOUT REPAIRS?** *Electrolux has no moving parts to wear and need costly repairing.*

4 **WHO WILL SERVICE IT?** *Your own gas company stands behind Electrolux and services every one it sells.*

QUICK FACTS

Permanently silent

Frees you from costly repairs
Costs less to operate
Temperature regulator
Non-stop defrosting
Ample food space
Plenty of ice cubes

Operates for only 3c A DAY

Don't hesitate to ask all the questions you think of when you consider the purchase of an automatic refrigerator.

We have listed four pertinent questions above. And we believe that the New Air-Cooled Electrolux has the best answers to all of them.

It costs less to run, because it operates upon a simpler, more efficient principle. A tiny gas flame circulates a simple refrigerant. Ordinary air cools it.

It's permanently silent, because it has nothing to make noise with.

It frees you from costly repairs because it has no moving parts to wear.

But Electrolux does not stop there. It has all the modern conveniences that make an automatic refrigerator a real joy to own.

Here are some of them:

Rubber ice-cube grid. New gleaming-white Newtone finish. Non-stop defrosting. Trigger tray release. Temperature regulator that speeds the freezing of ice cubes—and makes it easy to prepare delicious salads and desserts.

Please come in. We are sure that you'll share our enthusiasm for the New Air-Cooled Electrolux . . . it's so far in advance of all other refrigerators.

It's a real pleasure to own an Electrolux. And it's a pleasure, too, to know that your own gas company stands back of Electrolux and gladly services every one it sells.

Plan Rebuilding Of Bridge Span At East Brady

(International News Service)

HARRISBURG, April 10—Bids for the first unit of a gradual reconstruction plan by which the state department of highways will eventually replace the bridge across the Allegheny river at East Brady with a new and modern span will be opened April 20, Secretary of Highways Samuel S. Lewis announced today.

The first bids will be for two modern steel trusses to replace the two sections of the bridge recently washed away when ice jammed the river.

Lewis said there was not sufficient money available to replace the bridge immediately with a new structure but that by using the portions left standing in the recent storms a new bridge would eventually be provided.

He said the two trusses for which bids have been asked will be of thoroughly modern construction. Later, the department will replace the other sections of the bridge.

Leta Is Candidate For General Assembly

Attorney Announces Candidacy For Republican Nomination In First District

JOSEPH LETA, JR.

Attorney Leta, before entering the legal profession, attended Allegheny college in Meadville. He later entered the University of Michigan where he received his Bachelor of Arts degree in 1923 and his Bachelor of Laws degree in 1925. Mr. Leta was then admitted to practice before the Supreme and Superior Courts of Pennsylvania of which he is now a member. He is also a member of the District Court of the United States as well as of the Venango and Lawrence County Courts, and has his law offices in the Lawrence Savings and Trust Building. He is a resident of the Fourth Ward, is married, and has one child.

In announcing his candidacy Mr. Leta sets forth his views in the following statement:

"Taxation on homes has reached the prohibitive stage so that people prefer not to own their own homes. This is a bad state of affairs because ownership of his own home by the individual citizen makes for sound and stable government. It is essential that we fulfill our duties as an organized society, but it is equally essential that we help the home-owner.

I am satisfied that our tax-collecting system is faulty and that, by proper legislation, large sums of money can be saved the tax-payers. We have too many unnecessary duplications in office which can and must be eliminated for they increase taxes without increasing efficiency.

In my practice I have noticed instances where our law-makers have failed to protect our people. For instance, under existing laws a woman who loses her husband leaving her a home and no other estate is called upon to pay a special tax. In most cases this works a hardship and is unfair to the widow. I believe that such homes should be exempted from Inheritance Tax.

While most people are under the impression that 6% is the only legal rate of interest in Pennsylvania, many who have had occasion to borrow small sums of money have discovered that under Pennsylvania law certain companies are permitted to charge as high as 42% per year on loans not exceeding $300. Such a law is unfair to the man or woman that is in need of a small loan and in my judgment should be either totally abolished or radically modified.

Under our present democratic form of government it is essential that we make provision for an efficient school system. In this connection I believe that a state income tax law on large incomes would solve the problem of the School Teachers.

Legislation which is intelligent, fair and impartial should be enacted concerning all Public Utilities.

I favor a shorter working day and a wage that will permit the laboring man to make a comfortable living.

I belong to no political group and I have made no promises. If nominated and elected I will devote myself to the best interests of our community without making any distinction as to race, color or creed. I believe that my training as a lawyer will enable me to present properly my views in the law-making branch of our Commonwealth.

With the above statement I respectfully submit my name as a candidate for the nomination for Representative to the General Assembly from the City of New Castle, subject to the Republican Primary of May 15, and solicit the support of each and every voter."

IMPORTANT QUESTIONS

when you buy an automatic refrigerator

1 WHAT IS ITS OPERATING COST? *Electrolux operates for less than any other refrigerator.*

2 IS IT PERMANENTLY SILENT? *Electrolux is . . . it has nothing to make noise, or to wear and become noisy.*

3 WHAT ABOUT REPAIRS? *Electrolux has no moving parts to wear and need costly repairing.*

4 WHO WILL SERVICE IT? *Your own gas company stands behind Electrolux and services every one it sells.*

QUICK FACTS

Permanently silent
Has no moving parts
Frees you from costly repairs
Costs less to operate
Temperature regulator
Non-stop defrosting
Ample food space
Plenty of ice cubes

Operates for only 3c A DAY

Don't hesitate to ask all the questions you think of when you consider the purchase of an automatic refrigerator.

We have listed four pertinent questions above. And we believe that the New Air-Cooled Electrolux has the best answers to all of them.

It costs less to run, because it operates upon a simpler, more efficient principle. A tiny gas flame circulates a simple refrigerant. Ordinary air cools it.

It's permanently silent, because it has nothing to make noise with.

It frees you from costly repairs because it has no moving parts to wear.

But Electrolux does not stop there. It has all the modern conveniences that make an automatic refrigerator a real joy to own.

Here are some of them:

Rubber ice-cube grid. New gleaming-white Newtone finish. Non-stop defrosting. Trigger tray release. Temperature regulator that speeds the freezing of ice cubes—and makes it easy to prepare delicious salads and desserts.

Please come in. We are sure that you'll share our enthusiasm for the New Air-Cooled Electrolux . . . it's so far in advance of all other refrigerators.

It's a real pleasure to own an Electrolux. And it's a pleasure, too, to know that your own gas company stands back of Electrolux and gladly services every one it sells.

Plan Rebuilding Of Bridge Span At East Brady

(International News Service)

HARRISBURG, April 10—Bids for the first unit of a gradual reconstruction plan by which the state department of highways will eventually replace the bridge across the Allegheny river at East Brady with a new and modern span will be opened April 20, Secretary of Highways Samuel S. Lewis announced today.

The first bids will be for two modern steel trusses to replace the two sections of the bridge recently washed away when ice jammed the river.

Lewis said there was not sufficient money available to replace the bridge immediately with a new structure but that by using the portions left standing in the recent storms a new bridge would eventually be provided.

He said the two trusses for which bids have been asked will be of thoroughly modern construction. Later, the department will replace the other sections of the bridge.

Fishermen And Hunters To Gather In Cathedral Tonight

ROSS LEFFLER TO MAKE ADDRESS

Tonight is the night for the Round up of members, new and old, of the Lawrence County Sportsmen's association and as it will be the last meeting before the trout season is ushered in no doubt hundreds will attend the meeting in the Cathedral dining room. Ross Leffler, former State Game commission member will make the principal address.

Annually about this time the boys who like to angle and hunt get together in a powwow and while most of the boys who are interested in hunting are also interested in fishing and vise versa, there will be many tales swapped tonight. One thing is sure—fish talk will predominate.

President Andrew Dodds, pleased with the success of the State Game exhibit given here some time ago said he and the committee will be at door ready to greet all the new members, approximately 400 whom signed up while the exhibit was on. Delegations from Hilleville, West Pittsburg, Pulaski, and other places in Lawrence county, will be present when the time comes to talk fish, which is at 8 p. m.

TWO MORE TEAMS CAN JOIN LOOP

Managers of teams in the Lawence County Baseball League will meet Wednesday night at the Sport Goods store, according to announcement today. West Pittsburg, Bessemer, Polish nationals and Mahoning A. A. the latter last season's champs, will be represented.

The league officials would open the league this season to six teams providing two others obeyed the laws as set forth at the recent session and those chiefly center around the forfeit which will keep teams from dropping out owing to arguments at critical period.

Backfield Worry For Bridenbaugh

Coach Phil H Bridenbaugh being interviewed by C. P. Walther, News sports writer—

"What about the New Castle High football team this year", the News scribe asked.

"Well, said Bridenbaugh, it's just this way. The line looks very strong, but our backfield has more holes than a first class piece of switzer cheese."

"Are there any good looking ones up from Washington and Franklin High this year? was the next question put to the coach.

"Well, yes and no, mostly yes. The boys who look like possibilities in the spring workouts so far are Mumford, Bloise, Otlowski and Jokinen, also Perrett.

Miles—Palkovitch

"What about the holdovers from last year?"

"You know it's funny said Bridenbaugh, there are a couple of big husky boys out there who should make the varsity grade this year. They are just a little slow and need pepped up, and if they come through we will have a crackerjack team. The boys in mention were big John Palkovitch and George Miles. A couple of lads who could answer any coaches prayer for size and weight.

"I'm not much concerned about the line this year, with the two Shellogg brothers, Alec and Fred, Walter Raskowski, Joe Howley, Harry Tuscano, Johns, and others on the front wall."

"It's that backfield that has me worried to death" because what good will our big heavy line be, if we do not have any backfield. Bridenbaugh is pretty sweet on Charles "Chuck" Fleming for the quarterback job this year. Fleming played end last year.

New York Fans Howl; Weintraub Is Shipped Away

Manager Bill Terry Disposes Of Promising Jewish Athlete To Nashville

WEINTRAUB BEST HITTER ON TEAM

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 10.—William Harold Terry, the baseball manager who seems capable of inflaming large numbers of people, locally, vocally and by long distance, was in the midst of a new controversy today. Without even knowing it. Hundreds of miles away, he's wandering aimlessly back and forth across the southern landscape with his ball club, apparently intent upon seeing the world from a pullman window, while back in New York the word has gone out that he's an oppressor, an aggressor and a no-good. In other words, Mr. Terry just doesn't seem to be sunshine, the boy with the golden tooth.

It all started because Terry recently sent Phil Weintraub, the outfielder, down to Nashville at a time when he was leading the club in hitting. This seems to have caused great distress among the ready-to-wear set. They're holding indignation meetings. They're writing letters, with group signatures, threatening reprisals by the Jewish citizens of the town. There are about three million Jewish citizens of the town.

Weintraub Goes

Nobody, as it was, went to see the Giants win the pennant last year. In fact, they practically stayed away in a body. That, however, was strictly their mistake and somehow I feel the urge to add that this is another, only part of it being Mr. Terry's. He could use a little less candor and a little less diplomacy. McGraw did. He sought after and encouraged Jewish athletes. Terry sends them to Nashville.

Otherwise, his reasoning is logical and, I suppose, his judgment sound. Weintraub has hit .344 in 23 games, has scored six runs and driven in five more; has made eleven hits, including five doubles and four triples, and altogether has topped the ball club everywhere and in everything. A second-string catcher is hitting .313. The rest of the Giants are down somewhere among the decimals.

But, as I say, Mr. Terry is paid more than $30,000 a year just to be right and the chances are he is this time. He has four regular outfielders, Moore, O'Doul, Watkins and Ott. All hit left handed. Weintraub is a left hand hitter. Peel and Leiber, the other candidates are not. That's as good an answer as any. In any case, it's undoubtedly Terry's. Moreover, Weintraub is understood to have some fielding flaws and, without going too deeply into the subject, I think Mr. Terry is quite capable of importing an Eskimo to play left field. If he thought it would help.

GRIMM-WALKER ARE AT ODDS

(International News Service)

CHICAGO, April 10.—Vague rumblings indicating that all is not well in the official family of the Chicago Cubs are disturbing the quietude in the vicinity of Wrigley field.

In short, they say, Uncle Charley and President Walker are not clicking together so well and if they are not careful it may be that the turnstile will function in a like manner. In fact, the discord has become so noticeable that even the press boys who got Christmas presents last December are beginning to mutter in audible tones about the matter.

Consulted on the report, President Walker has denied any such breach.

Yankees Have Good Rookies

Rolfe And Heffner Seem To Have Won Regular Berths On Yankee Infield

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 10.—To me, they're just a lot of fairly funny looking guys who can give that ball an awful funny looking thump but, then, I'm betting commissioner and price-maker and that greatly simplifies things. I can afford to be wrong; I can even be wrong for nothing and often am, with the result that it's probably worth while to attach some importance to a shift in the odds today that makes the New York Yankees only 7 to 5 in the American league, instead of the 2 to 1 they were a week ago. The price-makers are beginning to take precaution against what the insurance people call an act of providence.

In other words, they're about ready to accept "Red" Rolfe and Don Heffner, the bright young men at shortstop and second base, for what they really seem to be. Which in this case is a couple of minor leaguers who apparently ought to have been in the Major leagues long ago.

It doesn't seem possible, of course. Everybody agrees that no ball club can hope to develop a new pair in the middle of the diamond at one and the same time. But they said that eight years ago about the same club and the answer was Koenig and Lazzeri and a one-year rush from sixth place to the pennant.

Rookies Make Good

"I would have laid 100 to 1 in January against Rolfe and Heffner", Jack Doyle, who takes the Broadway bets, said today. "But there's no price on them with me now. I've seen them."

Of course, Ruth looks much better now. So do Gomez, Ruffing and Allen. The pitchers, but these are details in contrast to the weight of importance that abided with Rolfe and Heffner. If one of them stood up, which was about the best that any outstanding chump could hope for, the club had a chance. If neither did, the club had none.

Instead, they've burned up the southern wheel; they've wow-ed everybody with a total ranging somewhere between twenty and twenty-five double plays and I doubt if they've made four errors between them. Moreover, this Rolfe has hit like a maniac and now leads the club at bat. Heffner is smaller and lighter, they say a little too light, and he hasn't hit very well in recent weeks but the rest are calling him "the best Yankee second baseman in twenty-two years," which has me a little worried, at that.

Anyhow, there is no price on April form; there isn't even any form and one miracle is several too many in my book. Nevertheless, there's one thing worth remembering about bookmakers. They don't shorten prices unless the money comes in.

"SHOW-DOWN" PLAN SHOWS WHY DODGE TRUCKS SAVE GAS...OIL...TIRES...REPAIRS!

Dodge Now Priced with Lowest...No Wonder Thousands of Shrewd Buyers say..."My Next Truck Will Be a Dodge!"

THERE is no mistaking Dodge extra value in the low-price field when you check up for yourself feature-by-feature. Thousands have made an out-and-out, "Show-Down" comparison. The result is a gigantic swing of buyers to Dodge. Sales in the last four months have gained four times faster than the field.

Here is Dodge, priced with the lowest, yet leading the field in costly features by an almost unbelievable margin. And they are features that unquestionably save gasoline, oil, tires, and repair bills . . . such features of fine truck building as hydraulic brakes, oil filter, cast iron braking surfaces, full pressure lubrication, full floating rear axle, 4-bearing crankshaft, valve seat inserts, roller bearing universals . . . eighteen extra-value features in all.

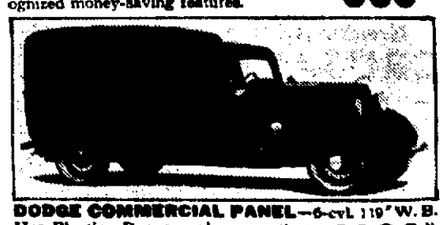

Don't buy any truck till you compare it with Dodge. If you want a truck built to save money on repairs and running costs, go to the Dodge dealer and ask for the facts. Compare feature-by-feature, point-by-point. You'll wonder how Dodge can give you so much. You won't find any other truck with even half of the important gas-oil-tire-and-repair-saving features you want and you find in Dodge and at such a low price!

That's why Dodge sales are gaining four times faster than the field. Smart buyers simply find far greater value in Dodge Trucks—and Dodge is priced with the lowest.

HERE AND THERE IN SPORTS' LAND

E. G. Livesay of Columbus, Ohio, national southpaw champion, and Art Lynch of Mamaroneck, N. Y., yesterday deadlocked for the final medal in the qualifying round of the annual Mason-Dixon golf championship at White Sulphur Springs. Livesay was out in 35 and home in 38 while Lynch made a pair of 37s. Par is 70.

Tiger Joe Randall and Joey Bazzone, welterweights, fought a spectacular 10-round fight last night at McKeesport. Randall got the decision. The Tiger had Bazzone down six times in the first round.

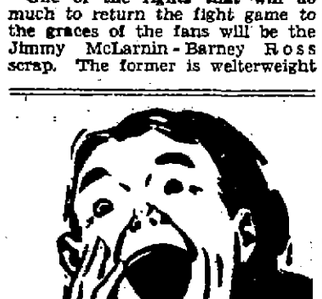

Green fee for the Schenley Park, Pittsburgh, municipal golf course was cut from $1.00 to 50 cents. The price here is 25 cents for nine holes and 25 cents for 18 holes on Monday. Extensive improvements are being made at the local course and it will not be long until the golfers ascertain the opening date for the golf season at the muny course over which Bill Fleming presides.

One of the fights that will do much to return the fight game to the graces of the fans will be the Jimmy McLarnin-Barney Ross scrap. The former is welterweight champion and Barney is the 135-pound king. The date and place have not yet been set.

Rain halted the North-South net tourney yesterday at Pinehurst after two first round matches had been played. Giles Verstraton, Jackson Heights, L. I., beat Charles Gill, New York, 7-5, 6-2, and Armand Bruneau, Brooklyn, eliminated Alvin Sulloway, Concord, N. H., 6-4, 6-4.

Sportsmen To Meet Tonight

Fishermen And Hunters To Gather In Cathedral Tonight

ROSS LEFFLER TO MAKE ADDRESS

Tonight is the night for the Round up of members, new and old, of the Lawrence County Sportsmen's association and as it will be the last meeting before the trout season is ushered in no doubt hundreds will attend the meeting in the Cathedral dining room. Ross Leffler, former State Game commission member will make the principal address.

Annually about this time the boys who like to angle and hunt get together in a powwow and while most of the boys who are interested in hunting are also interested in fishing and vise versa, there will be many tales swapped tonight. One thing is sure—fish talk will predominate.

President Andrew Dodds, pleased with the success of the State Game exhibit given here some time ago said he and the committee will be at door ready to greet all the new members, approximately 400 whom signed up while the exhibit was on. Delegations from Hilleville, West Pittsburg, Pulaski, and other places in Lawrence county, will be present when the time comes to talk fish, which is at 8 p. m.

The Center team held the lead at the half, 10 to 9. VanEman was the outstanding star of the game with 14 points, while S. Baldwin also played a fine game for the champions making nine points. For the losers the playing of J. Lapinsky, Farrell, and R. Myers, featured.

Managers of teams in the Lawrence County Baseball League will meet Wednesday night at the Sport Goods store, according to announcement today. West Pittsburg, Bessemer, Polish nationals and Mahoning A. A. the latter last season's champs, will be represented.

The league officials would open the league this season to six teams providing two others obeyed the laws as set forth at the recent session and those chiefly center around the forfeit which will keep teams from dropping out owing to arguments at critical period.

Backfield Worry For Bridenbaugh

Coach Phil H. Bridenbaugh being interviewed by C. P. Walther, News sports writer—

"What about the New Castle High football team this year", the News scribe asked.

"Well, said Bridenbaugh, it's just this way. The line looks very strong, but our backfield has more holes than a first class piece of switzer cheese."

"Are there any good looking ringers up from Washington and Franklin High this year? was the next question put to the coach.

"Well, yes and no, mostly yes. The boys who look like possibilities in the spring workouts so far are Mumford, Bloise, Otlowski and Jokinen, also Perrett.

Miles—Palkovitch

"What about the holdovers from last year?"

"You know it's funny said Bridenbaugh, there are a couple of big husky boys out there who should make the varsity grade this year. They are just a little slow and need pepped up, and if they come through we will have a crackerjack team. The boys in mention were big John Palkovitch and George Miles. A couple of lads who could answer any coaches prayer for size and weight.

"I'm not much concerned about the line this year, with the two Shellogg brothers, Alec and Fred, Walter Raskowski, Joe Howley, Harry Tuscano, Johns, and others on the front wall."

"It's that backfield that has me worried to death" because what good will our big heavy line be, if we do not have any backfield. Bridenbaugh is pretty sweet on Charles "Chuck" Fleming for the quarterback job this year. Fleming played end last year.

New York Fans Howl; Weintraub Is Shipped Away

Manager Bill Terry Disposes Of Promising Jewish Athlete To Nashville

WEINTRAUB BEST HITTER ON TEAM

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 10.—William Harold Terry, the baseball manager who seems capable of inflaming large numbers of people, locally, vocally and by long distance, was in the midst of a new controversy today. Without even knowing it. Hundreds of miles away, he's wandering aimlessly back and forth across the southern landscape with his ball club, apparently intent upon seeing the world from a pullman window, while back in New York the word has gone out that he's an oppressor, an aggressor and a no-good. In other words, Mr. Terry just doesn't seem to be sunshine, the boy with the golden tooth.

It all started because Terry recently sent Phil Weintraub, the outfielder, down to Nashville at a time when he was leading the club in hitting. This seems to have caused great distress among the ready-to-wear set. They're holding indignation meetings. They're writing letters, with group signatures, threatening reprisals by the Jewish citizens of the town. There are about three million Jewish citizens of the town.

Weintraub Goes

Nobody, as it was, went to see the Giants win the pennant last year. In fact, they practically stayed away in a body. That, however, was strictly their mistake and somehow I feel the urge to add that this is another, only part of it being Mr. Terry's. He could use a little less candor and a little less diplomacy. McGraw did. He sought after and encouraged Jewish athletes. Terry sends them to Nashville.

Otherwise, his reasoning is logical and, I suppose, his judgment sound. Weintraub has hit .344 in 23 games, has scored six runs and driven in five more; has made eleven hits, including five doubles and four triples, and altogether has topped the ball club everywhere and in everything. A second-string catcher is hitting .313. The rest of the Giants are down somewhere among the decimals.

But, as I say, Mr. Terry is paid more than $30,000 a year just to be right and the chances are he is this time. He has four regular outfielders, Moore, O'Doul, Watkins and Ott. All hit left handed. Weintraub is a left hand hitter. Peel and Leiber, the other candidates are not. That's as good an answer as any. In any case, it's undoubtedly Terry's. Moreover, Weintraub is understood to have some fielding flaws and, without going too deeply into the subject, I think Mr. Terry is quite capable of importing an Eskimo to play left field. If he thought it would help.

GRIMM-WALKER ARE AT ODDS

(International News Service)

CHICAGO, April 10.—Vague rumblings indicating that all is not well in the official family of the Chicago Cubs are disturbing the quietude in the vicinity of Wrigley field.

In short, they say, Uncle Charley and President Walker are not clicking together so well and if they are not careful it may be that the turnstile will function in a like manner. In fact, the discord has become so noticeable that even the press boys who got Christmas presents last December are beginning to mutter in audible tones about the matter.

Consulted on the report, President Walker has denied any such breach.

Yankees Have Good Rookies

Rolfe And Heffner Seem To Have Won Regular Berths On Yankee Infield

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 10.—To me, they're just a lot of fairly funny looking guys who can give that ball an awful funny looking thump but, then, I'm betting commissioner and price-maker and that greatly simplifies things. I can afford to be wrong; I can even be wrong for nothing and often am, with the result that it's probably worth while to attach some importance to a shift in the odds today that makes the New York Yankees only 7 to 5 in the American league, instead of the 2 to 1 they were a week ago. The price-makers are beginning to take precaution against what the insurance people call an act of providence.

In other words, they're about ready to accept "Red" Rolfe and Don Heffner, the bright young men at shortstop and second base, for what they really seem to be. Which in this case is a couple of minor leaguers who apparently ought to have been in the Major leagues long ago.

It doesn't seem possible, of course. Everybody agrees that no ball club can hope to develop a new pair in the middle of the diamond at one and the same time. But they said that eight years ago about the same club and the answer was Koenig and Lazzeri and a one-year rush from sixth place to the pennant.

Rookies Make Good

"I would have laid 100 to 1 in January against Rolfe and Heffner", Jack Doyle, who takes the Broadway bets, said today. "But there's no price on them with me now. I've seen them."

Of course, Ruth looks much better now. So do Gomez, Ruffing and Allen. The pitchers, but these are details in contrast to the weight of importance that abided with Rolfe and Heffner. If one of them stood up, which was about the best that any outstanding chump could hope for, the club had a chance. If neither did, the club had none.

Sportsmen To Meet Tonight

Fishermen And Hunters To Gather In Cathedral Tonight

ROSS LEFFLER TO MAKE ADDRESS

Tonight is the night for the Round up of members, new and old, of the Lawrence County Sportsmen's association and as it will be the last meeting before the trout season is ushered in no doubt hundreds will attend the meeting in the Cathedral dining room. Ross Leffler, former State Game commission member will make the principal address.

Annually about this time the boys who like to angle and hunt get together in a powwow and while most of the boys who are interested in hunting are also interested in fishing and vise versa, there will be many tales swapped tonight. One thing is sure—fish talk will predominate.

President Andrew Dodds, pleased with the success of the State Game exhibit given here some time ago said he and the committee will be at door ready to greet all the new members, approximately 400 whom signed up while the exhibit was on. Delegations from Hilleville, West Pittsburg, Pulaski, and other places in Lawrence county, will be present when the time comes to talk fish, which is at 8 p. m.

The league officials would open the league this season to six teams providing two others obeyed the laws as set forth at the recent session and those chiefly center around the forfeit which will keep teams from dropping out owing to arguments at critical period.

Backfield Worry For Bridenbaugh

Coach Phil H Bridenbaugh being interviewed by C. P. Walther, News sports writer—

"What about the New Castle High football team this year", the News scribe asked.

"Well, said Bridenbaugh, it's just this way. The line looks very strong, but our backfield has more holes than a first class piece of switzer cheese."

"Are there any good looking lads up from Washington and Franklin High this year? was the next question put to the coach.

"Well, yes and no, mostly yes. The boys who look like possibilities in the spring workouts so far are Mumford, Bloise, Otlowski and Jokinen, also Perrett.

Miles—Palkovitch

"What about the holdovers from last year?"

"You know it's funny said Bridenbaugh, there are a couple of big husky boys out there who should make the varsity grade this year. They are just a little slow and need pepped up, and if they come through we will have a crackerjack team. The boys in mention were big John Palkovitch and George Miles. A couple of lads who could answer any coaches prayer for size and weight.

"I'm not much concerned about the line this year, with the two Shellogg brothers, Alec and Fred, Walter Raskowski, Joe Howley, Harry Tuscano, Johns, and others on the front wall."

"It's that backfield that has me worried to death" because what good will our big heavy line be, if we do not have any backfield. Bridenbaugh is pretty sweet on Charles "Chuck" Fleming for the quarterback job this year. Fleming played end last year.

New York Fans Howl; Weintraub Is Shipped Away

Manager Bill Terry Disposes Of Promising Jewish Athlete To Nashville

WEINTRAUB BEST HITTER ON TEAM

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 10.—William Harold Terry, the baseball manager who seems capable of inflaming large numbers of people, locally, vocally and by long distance, was in the midst of a new controversy today. Without even knowing it. Hundreds of miles away, he's wandering aimlessly back and forth across the southern landscape with his ball club, apparently intent upon seeing the world from a pullman window, while back in New York the word has gone out that he's an oppressor, an aggressor and a no-good. In other words, Mr. Terry just doesn't seem to be sunshine, the boy with the golden tooth.

It all started because Terry recently sent Phil Weintraub, the outfielder, down to Nashville at a time when he was leading the club in hitting. This seems to have caused great distress among the ready-to-wear set. They're holding indignation meetings. They're writing letters, with group signatures, threatening reprisals by the Jewish citizens of the town. There are about three million Jewish citizens of the town.

Weintraub Goes

Nobody, as it was, went to see the Giants win the pennant last year. In fact, they practically stayed away in a body. That, however, was strictly their mistake and somehow I feel the urge to add that this is another, only part of it being Mr. Terry's. He could use a little less candor and a little less displomacy. McGraw did. He sought after and encouraged Jewish athletes. Terry sends them to Nashville.

Otherwise, his reasoning is logical and, I suppose, his judgment sound. Weintraub has hit .344 in 23 games, has scored six runs and driven in five more; has made eleven hits, including five doubles and four triples, and altogether has topped the ball club everywhere and in everything. A second-string catcher is hitting .313. The rest of the Giants are down somewhere among the decimals.

But, as I say, Mr. Terry is paid more than $30,000 a year just to be right and the chances are he is this time. He has four regular outfielders, Moore, O'Doul, Watkins and Ott. All hit left handed. Weintraub is a left hand hitter. Peel and Leiber, the other candidates are not. That's as good an answer as any. In any case, it's undoubtedly Terry's. Moreover, Weintraub is understood to have some fielding flaws and, without going too deeply into the subject, I think Mr. Terry is quite capable of importing an Eskimo to play left field. If he thought it would help.

GRIMM-WALKER ARE AT ODDS

(International News Service)

CHICAGO, April 10.—Vague rumblings indicating that all is not well in the official family of the Chicago Cubs are disturbing the quietude in the vicinity of Wrigley field.

In short, they say, Uncle Charley and President Walker are not clicking together so well and if they are not careful it may be that the turnstile will function in a like manner. In fact, the discord has become so noticeable that even the press boys who got Christmas presents last December are beginning to mutter in audible tones about the matter.

Consulted on the report, President Walker has denied any such breach.

Yankees Have Good Rookies

Rolfe And Heffner Seem To Have Won Regular Berths On Yankee Infield

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, April 10.—To me, they're just a lot of fairly funny looking guys who can give that ball an awful funny looking thump but, then, I'm betting commissioner and price-maker and that greatly simplifies things. I can afford to be wrong; I can even be wrong for nothing and often am, with the result that it's probably worth while to attach some importance to a shift in the odds today that makes the New York Yankees only 7 to 5 in the American league, instead of the 2 to 1 they were a week ago. The price-makers are beginning to take precaution against what the insurance people call an act of providence.

In other words, they're about ready to accept "Red" Rolfe and Don Heffner, the bright young men at shortstop and second base, for what they really seem to be. Which in this case is a couple of minor leaguers who apparently ought to have been in the Major leagues long ago.

It doesn't seem possible, of course. Everybody agrees that no ball club can hope to develop a new pair in the middle of the diamond at one and the same time. But they said that eight years ago about the same club and the answer was Koenig and Lazzeri and a one-year rush from sixth place to the pennant.

Rookies Make Good

"I would have laid 100 to 1 in January against Rolfe and Heffner", Jack Doyle, who takes the Broadway bets, said today. "But there's no price on them with me now. I've seen them."

Of course, Ruth looks much better now. So do Gomez, Ruffing and Allen. The pitchers, but these are details in contrast to the weight of importance that abided with Rolfe and Heffner. If one of them stood up, which was about the best that any outstanding chump could hope for, the club had a chance. If neither did, the club had none.

Instead, they've burned up the southern wheel; they've wow-ed everybody with a total ranging somewhere between twenty and twenty-five double plays and I doubt if they've made four errors between them. Moreover, this Rolfe has hit like a maniac and now leads the club at bat. Heffner is smaller and lighter, they say a little too light, and he hasn't hit very well in recent weeks but the rest are calling him "the best Yankee second baseman in twenty-two years," which has me a little worried, at that.

Anyhow, there is no price on April form; there isn't even any form and one miracle is several too many in my book. Nevertheless, there's one thing worth remembering about bookmakers. They don't shorten prices unless the money comes in.

"SHOW-DOWN" PLAN SHOWS WHY DODGE TRUCKS SAVE GAS...OIL...TIRES...REPAIRS!

Dodge Now Priced with Lowest...No Wonder Thousands of Shrewd Buyers say..."My Next Truck Will Be a Dodge!"

THERE is no mistaking Dodge extra value in the low-price field when you check up for yourself feature-by-feature. Thousands have made an out-and-out, "Show-Down" comparison. The result is a gigantic swing of buyers to Dodge. Sales in the last four months have gained four times faster than the field.

Here is Dodge, priced with the lowest, yet leading the field in costly features by an almost unbelievable margin. And they are features that unquestionably save gasoline, oil, tires, and repair bills . . . such features of fine truck building as hydraulic brakes, oil filter, cast iron braking surfaces, full pressure lubrication, full floating rear axle, 4-bearing crankshaft, valve seat inserts, roller bearing universals . . . eighteen extra-value features in all.

Don't buy any truck till you compare it with Dodge. If you want a truck built to save money on repairs and running costs, go to the Dodge dealer and ask for the facts. Compare feature-by-feature, point-by-point. You'll wonder how Dodge can give you so much. You won't find any other truck with even half of the important gas-oil-tire-and-repair-saving features you want and you find in Dodge and at such a low price!

That's why Dodge sales are gaining four times faster than the field. Smart buyers simply find far greater value in Dodge Trucks—and Dodge is priced with the lowest.

Stock Market Up Moderately

Strength In Oils, Motors And Steels Lifts Main Body Of Stocks Higher

UTILITIES ARE AT STANDSTILL

(International News Service)

NEW YORK, April 10.—Strength in the motors, oils and steels lifted the main body of stocks moderately today. The demand for the motor shares was apparent right from the opening and was inducted by the settlement of the Motor Products Corp. strike.

Chrysler and General Motors gained a point each, while Nash broke nearly 2 points on the omission of the dividend.

Reports of a rise in Crude Oil quotations lifted the oil shares with Continental an active favorite.

The sharp rise in steel operations lifted United States Steel and Bethlehem fractionally and induced a small but consistent demand for the other steel shares.

The utilities, however, failed to share in the upturn being depressed by the passage of the Lehman bills by the state legislature. Consolidated Gas lost fractionally.

Commodity markets were strong. The grain market including wheat and corn opened fractionally higher and then extended their gains slightly while, cotton after opening moderately lower turned around to advance about 25 cents a bale.

Atchison featured the rail shares with a gain of more than a point. New York Central and Northern Pacific were other strong spots.

Discuss Corn-Hog Reduction Here

State Administrator Will Be Here For Meeting Friday Evening

W. B. Flory in charge of the Corn-Hog Reduction program of the Agricultural Adjustment Administration in Pennsylvania will discuss this program and answer questions at a meeting in the Y. M. C. A. building, New Castle, April 13, at 8 p. m. Anyone interested in this program is urged to attend this meeting.

Farmers who have grown an average of 10 acres or more of corn in 1932 and 1933, or any pigs for market in those same years are eligible to participate in the corn-hog control program.

A farmer who signs a contract agrees to reduce his corn acreage in 1934 by at least 20% of his average production for the last two years; and litters farrowed and hogs marketed from them by at least 25%.

As benefit payments, the eligible farmer signing a contract will receive thirty cents per bushel on the estimated production of the corn acreage taken out of production, and five dollars per head on hogs marketed up to 75% of the average production for the past two years. In both cases the farmers' proportion of local administrative costs of the campaign will be deducted from the benefit payments.

Stock Market Up Moderately

Strength In Oils, Motors And Steels Lifts Main Body Of Stocks Higher

UTILITIES ARE AT STANDSTILL

(International News Service)

NEW YORK, April 10.—Strength in the motors, oils and steels lifted the main body of stocks moderately today. The demand for the motor shares was apparent right from the opening and was inducted by the settlement of the Motor Products Corp. strike.

Chrysler and General Motors gained a point each, while Nash broke nearly 2 points on the omission of the dividend.

Reports of a rise in Crude Oil quotations lifted the oil shares with Continental an active favorite.

The sharp rise in steel operations lifted United States Steel and Bethlehem fractionally and induced a small but consistent demand for the other steel shares.

The utilities, however, failed to share in the upturn being depressed by the passage of the Lehman bills by the state legislature. Consolidated Gas lost fractionally.

Commodity markets were strong. The grain market including wheat and corn opened fractionally higher and then extended their gains slightly while, cotton after opening moderately lower turned around to advance about 25 cents a bale.

Atchison featured the rail shares with a gain of more than a point. New York Central and Northern Pacific were other strong spots.

Stock Market Up Moderately

Strength In Oils, Motors And Steels Lifts Main Body Of Stocks Higher

UTILITIES ARE AT STANDSTILL

(International News Service)

NEW YORK, April 10.—Strength in the motors, oils and steels lifted the main body of stocks moderately today. The demand for the motor shares was apparent right from the opening and was inducted by the settlement of the Motor Products Corp. strike.

Chrysler and General Motors gained a point each, while Nash broke nearly 2 points on the omission of the dividend.

Reports of a rise in Crude Oil quotations lifted the oil shares with Continental an active favorite.

The sharp rise in steel operations lifted United States Steel and Bethlehem fractionally and induced a small but consistent demand for the other steel shares.

The utilities, however, failed to share in the upturn being depressed by the passage of the Lehman bills by the state legislature. Consolidated Gas lost fractionally.

Commodity markets were strong. The grain market including wheat and corn opened fractionally higher and then extended their gains slightly while, cotton after opening moderately lower turned around to advance about 25 cents a bale.

Atchison featured the rail shares with a gain of more than a point, New York Central and Northern Pacific were other strong spots.
